Subject: Zoning Amendment 76 Auburn Meadows Street SE Feedback

Please receive this as my feedback and concerns for this amendment.

I and my neighbours have serious concerns on the zoning amendment request for this parcel of land. In no particular order they include the height and size of the proposed structure, lack of traffic infrastructure road support, Parking (this project is allocating one parking spot per unit built which will completely clog the surrounding neighbourhood with vehicles on the streets). If you have any further questions please ask me.
