MOTION CARRIED”

HIGHLIGHTS

- This application seeks to establish an amended subdivision framework and redesignate a portion of the Pine Creek community located in the City’s southwest quadrant to allow for additional residential uses and roadways.
- This application would accommodate a range of housing types including single detached dwellings, semi-detached dwellings, cottage housing clusters, and rowhouse buildings,

**Land Use Amendment and Outline Plan in Pine Creek (Ward 13) at 235 - 210
Avenue SW, LOC2021-0029**

and is in keeping with the applicable policies of the *Municipal Development Plan* (MDP) and the *West Macleod Area Structure Plan* (ASP).

- What does this mean to Calgarians? This will allow for additional housing opportunities.
- Why does this matter? Additional housing types will be provided in a predominately low density residential community.
- The Creekrise Outline Plan for the future subdivision and development of 80.72 hectares (199.46 acres) of undeveloped greenfield in the southeast community of Pine Creek (LOC2017-0102) was previously approved. This application is revising the northern portion of the approved outline plan.
- Strategic Alignment to Council's Citizen Priorities: A city of safe and inspiring neighbourhoods.

DISCUSSION

This outline plan and land use amendment application was submitted on 2021 February 24 by B&A Planning Group on behalf of the landowner, Creekrise FS GP Ltd (Attachment 2). The approximately 3.35 hectare (8.28 acre) site is in the developing community of Pine Creek, located south of 210 Avenue SW within the northern portion of the Creekrise Outline Plan area (LOC2017-0102) as approved in 2018 (Attachment 7). The site is currently vacant and is surrounded by recently approved outline plans and residential land uses for the different neighbourhoods within Pine Creek (Attachment 1 – Figure 1).

As referenced in the Applicant Submission (Attachment 2), the proposal is to amend the approved outline plan and land uses on the subject site in response to the severe grading challenges on site and to assist with the changing market demand. The original outline plan anticipated a total of 70 units in this area (14 R-1s units, 11 R-G units, and 44 R-2M units). In comparison, the proposed outline plan and land use amendment is expected to have a total of 51 R-G units at build-out (approximately 27 percent less dwelling units compared to the original approval).

The proposed Outline Plan area is 3.35 hectares (approximately 8.28 acres) with the extension of Creekstone Hills SW and relocation of Creekstone Mews SW, whereas the proposed land use amendment affects 1.11 hectares (approximately 2.74 acres) of the existing R-1s area and 1.78 hectares (approximately 4.40 acres) of the existing R-2M areas.

There are no proposed adjustments to the Municipal Reserve (MR), Environmental Reserve (ER) or Public Utility Lot (PUL) parcels as approved with the original Creekrise Outline Plan. The proposed changes will result in a moderate decrease in housing units and population density within this area; however, the overall density for the neighbourhood of Creekrise and the community of Pine Creek will still be in line with the applicable statutory plans and the community vision for the area.

A detailed planning evaluation of the application, including location maps and site context, is provided in Attachment 1, Background and Planning Evaluation.
