

Application Summary Statistics

This attachment provides information on types of parcels within Waste Management Facilities Setbacks, requirements for variance applications to the Province, and applications for a variance since 2019 November.

Parcel locations

The table below shows the distribution of types of parcels in Waste Management Facilities setbacks in Calgary. There are 1750 where a consent for a variance would be considered and 953 where the consent would not be considered, as they are within the setback of an operating City Facility.

Type	Number of Parcels
Consent for variance considered	1750
Industrial Area	1723
Strategic Growth Area	27
Consent for variance not considered (operating City Facility)	953
TOTAL	2703

Provincially Mandated Applications Requirements

The Province specifies application requirements for applicants wishing to pursue a variance to allow a sensitive use in a setback, as well as for introducing new Waste Management Facilities.

This table outlines the information an applicant must provide for an application for a sensitive use within a Waste Management Facilities setback, depending on the type of Waste Management Facility involved.

Type of Waste Management Facility (WMF)	Letter Required from Applicant	Letter of support Required from WMF Operator	Engineering Report Required
Active City Landfill or Wastewater Facility	Generally, Applications within active Landfills or Wastewater setbacks are not supported by The City		
Decommissioned Landfill or Wastewater Facility	Y	Y	Y
Other types of Waste Management Facilities	Y	Y	N
Nose Creek sub area	Y	Y	No, because the city has done one

This table outlines the requirements when proposing a new Waste Management Facility.

Proposed Waste Management Facility (WMF) establishing new setback	Letter Required from Applicant	Letter of support Required from WMF Operator	Engineering Report Required
Landfill or Wastewater Facility	Y	Y	Y
Other types of Waste Management Facilities	Y	Y	N

Applications Granted Consent for Variance

Below is a summary of applications received since 2019 November for which consent for a variance has been granted.

Applications Parcels in existing SDR	Province has granted consent	Refused by COC and overturned by SDAB	Approved in Error	Total
Variations requested	9	3	2	14
