Applicant-Led Outreach

As part of the review of the proposed land use amendment application, the applicant was encouraged to use the [Applicant Outreach Toolkit](#) to assess which level of outreach with public stakeholders was appropriate.

In August 2020, the applicant initiated online engagement by hosting a virtual open house and opportunity for online feedback. Participation was not limited to a specific target audience. While efforts were made to include the surrounding residential and business communities, no specific demographic information was gathered through the engagement process. Stakeholders from The City's Calgary Neighbourhoods, the International Avenue Business Revitalization Zone (BRZ) and the Southview Community Association were all directly engaged throughout the project consultation process.

A summary report was compiled outlining the results of the online survey, relating to the design and development of the subject site. There were 1,076 online survey responses received. The responses obtained through the engagement were used to inform the design (e.g. impacts of views, access to pathways) of the commemorative park. Details can be found in the Applicant Outreach Summary (Attachment 5).

City-Led Outreach

In keeping with Administration's standard practice, this application was circulated to external stakeholders and notice posted on-site. Notification letters were sent to adjacent landowners and the application was advertised [online](#).

One letter of support was received from the public, with a comment regarding increased traffic and pedestrian safety concerns at the intersection of 26 Street SE and 19 Avenue SE.

No comments from the Southview Community Association were received at the time of writing this report. The International Avenue BRZ provided a letter of support, dated 2021 March 17 (Attachment 6).
