**Re: Silvera East Riverside Land Use Amendment Application**

We have been working alongside our neighbours in East Riverside, including Silvera, since 2016 when the East Riverside Master Plan was first developed. Following this collaborative process, we have continued to work closely together to better understand the aspirations of each land owner and to ensure an integrated approach to the redevelopment of this central neighbourhood and unique area within the City. The Silvera site is an important block within the neighbourhood – we believe the land uses and intensity proposed are in alignment with the intent of the master plan and will significantly contribute to achieving a more active, walkable, and complete community that continues to contribute to the broader Bridgeland-Riverside community and commercial area.

This letter confirms CNIB's full support of this land use amendment application as proposed.

Sincerely,

Diane Bergeron,  
Executive Director, Alberta & Northwest Territories, CNIB Foundation
