

Development Permit (DP2022-00067) Summary

A Development Permit application (DP2022-00067) was submitted on 2022 January 05 by Professional Custom Homes Ltd. The application proposes to redevelop the parcel with a four rowhouse dwelling units with four secondary suites and an accessory residential building that provides four parking spaces. The development permit application is currently under review by Administration. Approval of the development permit is contingent on the associated land use redesignation application being approved by Council.

The following site plan (Figure 1) and front elevation of the building (Figure 2) are from the development permit submission and provide an overview of what is being proposed. These drawings are included for informational purposes only.
