Commissioner Tiedemann	<p>Reasons for Approval</p> <ul style="list-style-type: none">• This is a simple application allowing an existing building to be used as a charter school focusing on various areas of technology. This application is in direct support of Calgary's overall goals of diversifying our core economic drivers. Educating young minds in a local context will help the city to progress towards it's desired economic diversification. This application will also allow for the efficient re-use of an existing building.
Commissioner Hawryluk	<p>Reasons for Approval</p> <ul style="list-style-type: none">• This is an adaptive reuse of an existing building, part of which is vacant. The Planning Commission was told that this application does not change the building, so I think this is a straightforward application. If children are our future, this application should help us teach them well so they can lead the way.
