

Regarding Notice of Public Hearing On Planning Matters Regarding Cornerstone Road closer and exists to and from my land .

I Dimitri Burcevski of 410233 Alberta LTD Property Address 10010 68 Street NE Calgary Legal Description 4;29;25;24;SW I'm one of the owners in Cornerstone Area Structure Plan.

For past twenty six years I had direct exist to Airport Road or Ninety Six Avenue .

About three Years ague the City of Calgary close my direct exist to my land and Ninety six Avenue or Airport Road , because they maid Airport Road expressway .

Now I don't have any exists from 68 Street or the new name Cornerstone Drive NE to Airport Road.

About three or four years ague on the City of Calgary open house when they maid Airport road expressway I was prom's the best or direct exist to Country Hills Boulevard and 60 Street but no to Airport Trail.

But Walton maid new road Corner Ridge Gate for West Creek and Walton but when it came to my land they cut of the Road and put school on the middle of the road deliberately not to continue to my land. I want that Road Corner Ridge Gate to continue to my land so I can have direct exist also to Country Hills Boulevard not just Walton and West Creek .

And also I want Corner View Boulevard to be bigger between Corner Stone Drive North East and Corner Stone Boulevard North East to be the same size as Cornerstone Boulevard.

Because that section of the road have to supply traffic to go on Corner Stone Boulevard to Country Hills and on the same time to supply traffic on Corner View Boulevard to go to 60 Street NE.

I want this roads because I got 155.9 Acers of land there and City of Calgary and the Province also got land in that corner . And also same land from surrounding neighbors from Walton they will use the exists also total will be about 250 acres of land .

RECEIVED

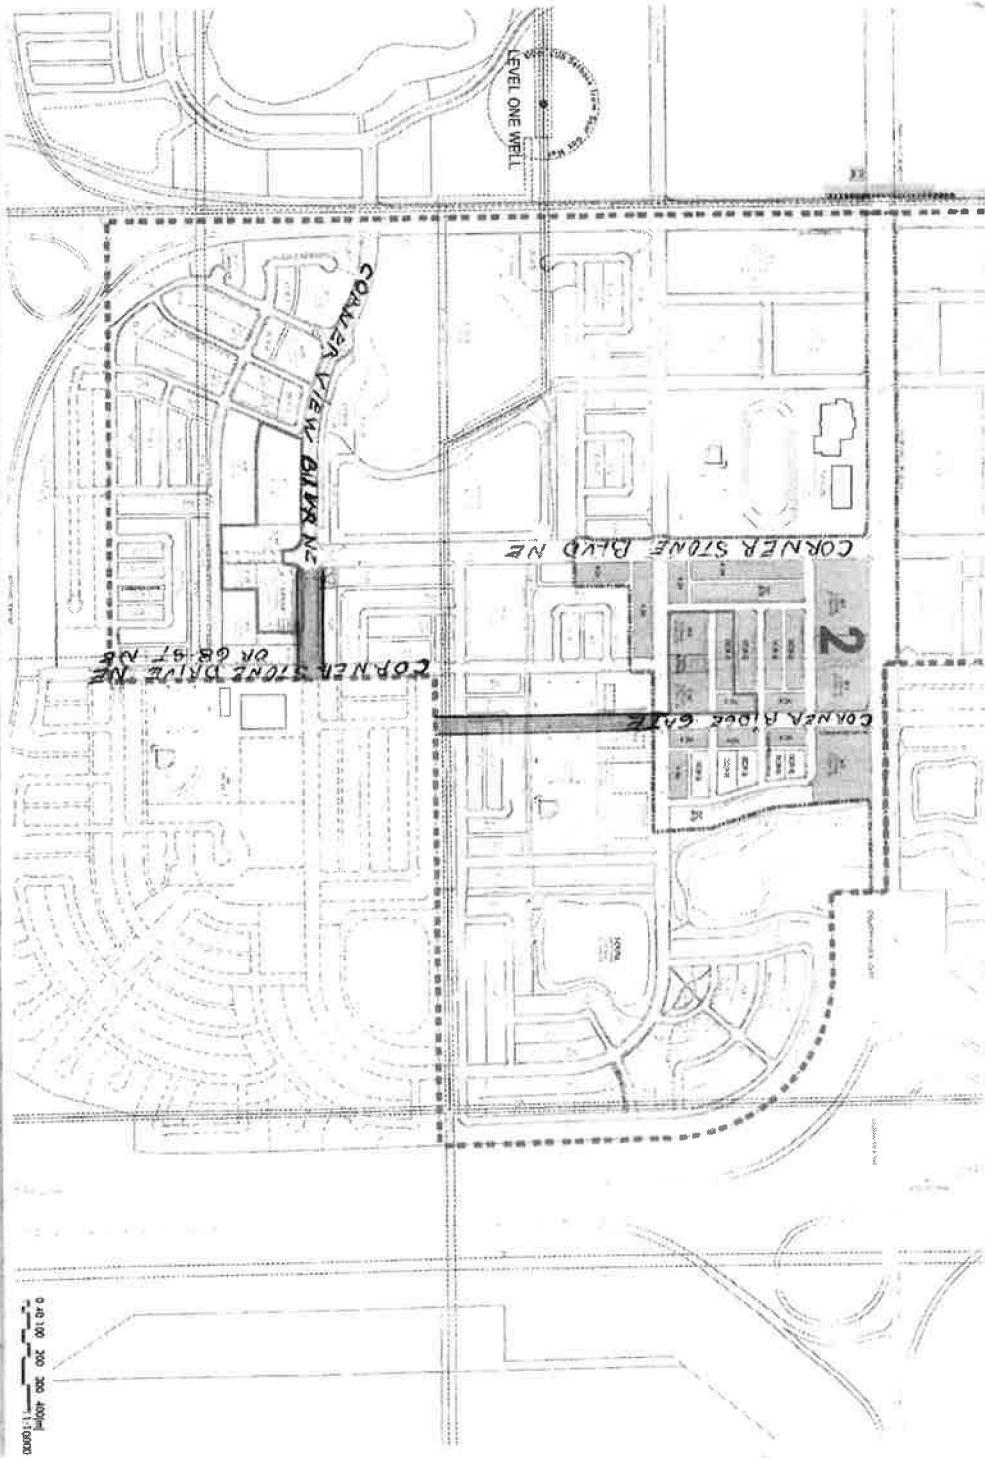

2015 JUL -6 AM 11:18

THE CITY OF CALGARY
CITY CLERK'S

It have to have better exists then what Walton is giving me because of the amount of land in that SW corner of Cornerstone Structure plan I m trapped in that corner .

Dimitri Burcevski
