

JUL 21 2015

To the CITY OF CALGARY COUNCIL: Please STOP DEVELOPMENT on, and KEEP PASKAPOO SLOPES WILD
2015

ITEM: CPC2015-124
Public
CITY CLERK'S DEPARTMENT
Submission

Petition summary and background	Please stop all future development on the Paskapoo slopes, from the COP entrance to Sarcee Trail South. As per the City of Calgary's Biodiversity Action Plan (BAP) and Open Space Land Use Policies document, this area, rich in environmental significance, recreation use, and archaeological sites, requires protection as an Environmental Open Space in order to ensure that this rich, biodiverse area is conserved for the present and future generations of Calgarians.
Action petitioned for	We, the undersigned, are concerned citizens who urge our City of Calgary Councillors to act now to explore all possible means of acquiring this key environmental parcel of land to be preserved as a Regional Park. We also urge City Council to reject the proposed Trinity Hills development plan, if it comes to Council for a decision, as having an inappropriate density, intensity and development footprint for the context of the area.

To the CITY OF CALGARY COUNCIL: Please STOP DEVELOPMENT on, and KEEP PASKAPOO SLOPES *Wild*, 2015

Petition summary and background	Please stop all future development on the Paskapoo slopes, from the COP entrance to Sarcee Trail South. As per the City of Calgary's Biodiversity Action Plan (BAP) and Open Space Land Use Policies document, this area, rich in environmental significance, recreation use, and archaeological sites, requires protection as an Environmental Open Space in order to ensure that this rich, biodiverse area is conserved for the present and future generations of Calgarians.
Action petitioned for	We, the undersigned, are concerned citizens who urge our City of Calgary Councillors to act now to explore all possible means of acquiring this key environmental parcel of land to be preserved as a Regional Park. We also urge City Council to reject the proposed Trinity Hills development plan, if it comes to Council for a decision, as having an inappropriate density, intensity and development footprint for the context of the area.
