Commissioner Tiedemann	<p>Reasons for Approval</p> <ul style="list-style-type: none">The rationale for the proposed land uses was well thought out and well explained by the applicant (REDs) and administration. This application supports the City's industrial strategy and based on conversation with administration, the proposed land uses are well supported by current market trends. The delineation of the industrial use lands and the adjacent MR (SPR and SUN) was done in a thoughtful way that ensures the existing creek and a surrounding buffer were appropriately preserved.
