**RISKS**

The approval processes place additional decision-making responsibility on the Administration for The City's real estate transactions. The potential risks associated with giving Administration greater authority, is mitigated in several ways:

- Increased due diligence and documentation achieved by the clearly defined business processes for all real estate transactions;
- All proposed real estate transactions documented by a land report or land authorization form will be reviewed by the Management Real Estate Review Committee or authorized delegated authority position;
- Administrative approvals will only be exercised where the established guidelines are met;
- The General Manager can opt to forward any proposed sale, lease or acquisition under his authority on to LASC and Council for approval;
- Quarterly reporting to the LASC and Council regarding transactions approved by the Administration

**VALUATION**

The negotiated prices of any of the Properties were based on internal valuations or independent appraisals which are endorsed by Administration's Valuation Review Committee.
