DISCUSSION

This land use amendment application was submitted by TI Architecture on behalf of the landowners, Qunying LI and Kevin Wai Ching Tung, on 2022 March 29. The 0.06 hectare (0.16 acre) midblock site is located in the community of Highland Park on 43 Avenue NW, approximately 75 metres east of the Centre Street North Main Street. No development permit application has been submitted at this time; however, as noted in the Applicant Submission (Attachment 2), the intent is to redevelop the property to accommodate a four-unit residential building with two units facing the street and two towards the rear, along with a rear detached garage.

A detailed planning evaluation of the application, including location maps and site context, is provided in Attachment 1, Background and Planning Evaluation.

Applicant-Led Outreach

As part of the review of the proposed land use amendment application, the applicant was encouraged to use the [Applicant Outreach Toolkit](#) to assess which level of outreach with public stakeholders and respective community association was appropriate. In response, the applicant reached out to the Highland Park Community Association with an outline of the proposed development on 2022 March 22 and 2022 April 20 for comments. However, no response was received by the applicant. The Applicant Outreach Summary can be found in Attachment 3.

City-Led Outreach

In keeping with Administration's practices, this application was circulated to stakeholders, notice posted on site and published [online](#). Notification letters were sent to adjacent landowners.

Administration received one letter of opposition which included the following areas of concern:

- high population density;
- limited street parking along 43 Avenue NE;
- increase in traffic volume, mainly in the alleyway;
- increase in noise volume; and
- shadowing impact on neighbouring properties.

The Highland Park Community Association (CA) was notified of the application and provided a letter citing their support for the proposal on 2022 June 13 (Attachment 4). They also included several additional comments on note:

- design of the building should consider privacy of adjacent properties; and
- concern regarding the quality of the crosswalk at 43 Avenue NW and Centre Street N.

Administration considered the relevant planning issues specific to the application and has determined the proposal to be appropriate. The building and site design, number of units and on-site parking will be reviewed and determined at the development permit stage

Following Calgary Planning Commission, notifications for a Public Hearing of Council for the land use amendment will be posted on site and mailed out to adjacent landowners. In addition, Commission's recommendation and the date of the Public Hearing will be advertised.

IMPLICATIONS

Social

The proposed land use district would allow for a wider range of housing types than the existing land use district. The proposed change may better accommodate the housing needs of different age groups, lifestyles and demographics.
