**HIGHLIGHTS**

- This land use amendment application seeks to redesignate the subject property to allow for light industrial and commercial uses.
- The proposed Industrial – Commercial (I-C) District would allow for a set of uses that are complementary to the neighbouring character of the area, provide appropriate transition to the adjacent industrial areas and conform to relevant policies of the *Municipal Development Plan*.
- What does this mean to Calgarians? The proposal would allow for employment uses and increased flexibility to provide commercial uses near an established major activity centre.
- Why does this matter? It is important to support and maintain industrial and employment uses within established areas to advance Calgary's economic development goals.
- No development permit has been submitted at this time.
- There is no previous Council direction regarding this proposal.
- Strategic Alignment to Council's Citizen Priorities: A prosperous city.

**DISCUSSION**

This application, located in the northeast commercial/industrial area of Sunridge, was submitted by Rick Balbi Architect on behalf of the landowner, Hillsboro Properties Inc., on 2022 March 08.

The approximately 1.40-hectare (3.45-acre) site contains nine bare land condo units and is surrounded by a mix of industrial and commercial buildings. The site is situated along 32 Street NE and is bounded by 23 Avenue NE to the north. Industrial developments are located to the west and south and Sunridge Mall is located immediately across 32 Street to the east.

No development permit application has been submitted at this time; however, as noted in the Applicant Submission (Attachment 2), development of seven commercial buildings with primarily retail, medical and restaurant uses is nearing completion. The existing DC District is based on the I-2 General Light Industrial District of former Land Use Bylaw 2P80 and includes the additional discretionary uses of retail stores and medical clinics.

---

The applicant intends to redesignate the parcel to accommodate additional commercial uses, such as personal service uses, to increase flexibility for future tenants from what is allowed under the existing DC District.

A detailed planning evaluation of the application, including location maps and site context, is provided in the Background and Planning Evaluation (Attachment 1).

**STAKEHOLDER ENGAGEMENT AND COMMUNICATION (EXTERNAL)**

- Outreach was undertaken by the Applicant
- Public/Stakeholders were informed by Administration

**Applicant-Led Outreach**

As part of the review of the proposed land use amendment application, the applicant was encouraged to use the [Applicant Outreach Toolkit](#) to assess which level of outreach with public stakeholders and respective community association was appropriated. In response, the applicant determined outreach was limited to the Ward 10 office as this is a developing industrial area and has no community association representing the area. The Applicant Outreach Summary can be found in Attachment 3.

**City-Led Outreach**

In keeping with Administration's practices, this application was circulated to stakeholders, notice posted on site and published [online](#). Notification letters were also sent to adjacent landowners.

No public comments were received and there is no community association for the subject area.

Following Calgary Planning Commission, notifications for a Public Hearing of Council for the land use amendment application will be posted on site and mailed to adjacent landowners. In addition, Commission's recommendation and the date of the Public Hearing will be advertised.

**IMPLICATIONS**

**Social**

The proposed land use district may provide opportunities for additional commercial uses while maintaining the industrial character and function of the area. The redesignation of the parcel may also allow for additional amenities and employment opportunities to help serve the area.

**Environmental**

This application does not include any actions that specifically address the objectives of the *Calgary Climate Strategy – Pathways to 2050*. Further opportunities to align future development on this site with applicable climate strategies will be explored and encouraged at subsequent development approval stages.

**Economic**

The proposed land use amendment enables additional flexibility in developing industrial and commercial uses which may better accommodate the economic needs of the area.
