Community Outreach for Planning & Development Applicant-led Outreach Summary

What did you hear?

Provide a summary of main issues and ideas that were raised by participants in your outreach.

We received a mix of support and concern for the proposed development. Those that were in support were excited to see the lot redeveloped in a way that promotes community growth. Others raised concerns about the added density and shortage of parking. Some just commented on the material selection and asked about the construction timeline.

How did stakeholder input influence decisions?

Provide a summary of how the issues and ideas summarized above influenced project decisions. If they did not, provide a response for why.

Comments about the design were relayed to the owner and will be considered prior to the Development Permit application. Otherwise, we believe that due to its size and location, this site is ideal for the proposed R-CG land use designation.

How did you close the loop with stakeholders?

Provide a summary of how you shared outreach outcomes and final project decisions with the stakeholders that participated in your outreach. (Please include any reports or supplementary materials as attachments)

Questions and concerns were answered via email for those who reached out.
