Community Outreach for Planning & Development Applicant-led Outreach Summary

What did you hear?

Provide a summary of main issues and ideas that were raised by participants in your outreach.

The only conflict or concern with this application related to the imposition of setback requirements and/or variances as a result of the Subdivision and Development Regulation requirements between Waste Facilities of any kind and food establishments. Specifically, this was a concern raised with respect to nearby Barlow Crossing in the fall of 2020.

No concerns were expressed concerning the hydrovac operation itself.

How did stakeholder input influence decisions?

Provide a summary of how the issues and ideas summarized above influenced project decisions. If they did not, provide a response for why.

The application was paused for the better part of two years while addressing the conflict with the Province.

How did you close the loop with stakeholders?

Provide a summary of how you shared outreach outcomes and final project decisions with the stakeholders that participated in your outreach. (Please include any reports or supplementary materials as attachments)

Once the conflict was resolved, discussion occurred between Badger and the developers of Barlow Crossing to ensure the outcome was communicated and their concerns addressed. The most recent discussion occurred in mid-June, 2022.
