Commissioner Tiedemann	<p>Reasons for Approval</p> <ul style="list-style-type: none"> This application represents a modest density increase (1 unit to 4 units) in the established area. The applicant has indicated that they intend to develop a 4 unit front/back style townhome project in the future. Given the location and proximity to major road ways, this was an easy application to support.
Commissioner Hawryluk	<p>Reasons for Approval</p> <ul style="list-style-type: none"> Councillors sometimes ask about having more three- and four-bedroom homes in apartment buildings in the established areas. Typically the construction costs per square foot are higher for apartment buildings and thus units with more bedrooms are more feasible in rowhouses than apartment buildings. <p>The first step toward having more family-sized homes in established areas is allowing more family-sized homes to be built in established areas. Allowing secondary suites also allows smaller households to live in established areas too.</p>
