<b>Commissioner Tiedemann</b>	Reasons for Approval <ul style="list-style-type: none"><li>The proposed land use redesignation is strictly to allow for a proposed scrolling digital sign. This potential signage should provide additional visual interest along a key pedestrian</li></ul>
<b>Commissioner Hawryluk</b>	Reasons for Approval <ul style="list-style-type: none"><li>My primary concern about this application was how the sign and other elements would be attached and removed without damaging the building or site. The applicant said the sign and related elements will be “demountable and removeable.” I understand that to mean that the building and site should not be damaged, so I supported this application.</li></ul>
