Re: Silver Spruce Outline Plan and Land Use Redesignation

May 17, 2022

Mr. Friedman,

The Silverado Community Association has been engaged by B&A Planning Group and Apex Developments throughout the Silver Spruce application process. Our latest meeting with the team was on May 9th, 2022 at which B&A and Apex presented the updated plan that will be presented to CPC and Council.

The SCA supports the proposed change in residential development form and intensity from the previously approved plan. We also appreciate the active and passive open spaces included in the plan. We believe that this particular increase in dedicated open spaces coincides with the wishes of the community at large given the participation, comments and questions during the engagement process.

Please accept this correspondence as support from the Silverado Community Association.

Sincerely,

A handwritten signature in black ink, appearing to read 'Barbra Deskin', with a stylized flourish at the end.

Barbra Deskin

President of the SCA
