Subject: Land use amendment/345Tuscany Drive NW

In referrance to your notice of amendment for the land use for 345 Tuscany NW , I strongly oppose the new plans. I am surprised that with all the open land in this area, the choice was made to build a fire station at this location! The noise factor is a big thing that should be considered. Also when we purchased our property, we were told that this piece of land was going to be used for soccer fields. So far ,for 9+ years, it has been so! The city in that time planted a few trees, never watered them and as a result there is about 9 living trees out of twice that amount! We are enjoying our solitude in Tuscany Court as we prepare to retire and hope it will continue!!
