Context

This document identifies the specific community indicators, performance measures and net total operating budgets and new capital budgets in the 2023-2026 Service Plans and Budgets that are recommended for Council approval.

To support evidence-based decision making and enhance accountability to Council and Calgarians, the 2023-2026 Service Plans and Budgets include a new element: community indicators we will positively influence over the next four years for each of the Council Foundations. There are many other community indicators that The City will be monitoring and some of the most important are listed in the 2023-2026 Service Plans and Budgets for reference. The only indicators listed here for approval are the ones we will positively influence over the next four years.

Operating budgets for approval in this document are the total amount for each year net of revenues, internal recoveries, expenditures and transfers to or from reserves. Capital budgets for approval in this document are the total amount of new capital for each year and are broken down by capital program or project. Additional budget details are available in the 2023-2026 Service Plans and Budgets.

Council Foundations Indicators

Foundation	Community indicators to positively influence over the next four years
Economic Resilience	Total downtown taxable assessed value (\$)
Social Resilience	Overall perceived safety in Calgary (% satisfied)
Climate Resilience	Calgary community-wide greenhouse gas (GHG) emissions (megatonnesCO ₂ e)

Service Performance Measures and Budgets

Building, Planning and Business

Appeals & Tribunals									
Performance Measures						Expected Performance by 2026			
PM1: Decision Timeliness Rate (per cent of decisions rendered on-time)						90
