

## Municipal Emergency Plan Annex Summary

The *Municipal Emergency Plan* details The City of Calgary's concept of operations, authorities, and responsibilities related to the coordination of emergency preparedness, response, and recovery activities within the municipality. It includes annexes that identify common all-hazards emergency management functions and unique procedures for specific incident types. Calgary Emergency Management Agency relies on the 60+ members to develop, resource, and implement these plans.

| Annex  | Description  | Responsible Agency Member                 |
|--|--|---|
| Corporate Business Continuity Plan           | Governs internal business continuity during unplanned interruptions to city services.  | Calgary Emergency Management Agency       |
| Corporate Recovery Plan                      | Guidance for corporate activities in support of local authority and community recovery.  | Calgary Emergency Management Agency       |
| Crisis Communications Plan                   | Process for establishing a Crisis Communications Team and developing internal and external communications.   | Customer Service & Communications         |
