Final Proposed Scale and Urban Form Maps

Phase 3 - Draft Scale and Urban Form Maps

Topic 1: Focus areas for growth

A local area plan provides guidance on where different types of growth and change should be focused. Let's start by exploring opportunities where new moderate to large-scale homes and businesses (4+ storeys) might be appropriate in the area.

New moderate to large-scale buildings for homes and businesses gives more people the option of living near local amenities, shops, and restaurants and provides all locals with increased access to a greater variety of amenities and services nearby.

Three growth focus areas – where moderate to large-scale growth (4+ storeys) could be focused include:

**Around Transit Station Areas
and Activity Centres**

Along Corridors

Around Parks and Open Spaces

Examples of 4+ storey buildings applied within communities like yours.
