<b>Commissioner Tiedmann</b>	<p>Reasons for Approval</p> <ul style="list-style-type: none"><li>• This R-C2 to R-CG application represents a relatively minor intensification in the established area only 1.5 blocks from John Laurie Boulevard NW. These types of applications play a small but important role in supporting the 50/50 growth targets identified in the MDP. While this application does not represent a large density increase, I would encourage the applicant to conduct meaningful engagement with the neighbours and greater community at the DP stage.</li></ul>
