

Background and Previous Council Direction

Background

Attainable Homes Calgary Corporation is a non-profit corporation, created and wholly-owned by The City of Calgary ("The City"), with a Mission "to provide affordable homeownership options for Calgarians". Renewal of The City guarantee ensures that Attainable Homes Calgary Corporation can continue to meet its commitment and work toward the Vision where "moderate-income Calgarians achieve their dream of homeownership".

Since 2009, through its down-payment assistance program, Attainable Homes Calgary Corporation has helped over 1,100 families attain home ownership.

Attainable Homes Calgary Corporation requires an operating credit facility to manage timing differences between cash outflows and inflows observed during its operating cycle, which involves new home construction, marketing, and new home purchase diligence. The absence of this type of financing would necessitate significant injection of equity by Attainable Homes Calgary Corporation's shareholder, The City, which is not a feasible option for a non-profit organization

Attainable Homes Calgary Corporation was committed to purchase a fixed existing housing supply from builder partners for its down-payment assistance program; as at 2022 December 31 Attainable Homes Calgary Corporation had three units with a value less than \$620,000 as standing inventory. Attainable Homes Calgary Corporation continues to market and sell this remaining inventory of housing. This inventory is independent from inventory at the REACH Martindale project which was sold out in 2022.

Previous Council Direction
