Do I need to resubmit this letter for it also appear when the plan is at Council? Thank you.

February 15, 2023

To Calgary City Council:

RE: The Draft Heritage Communities Local Area Plan

I write to express ***my support for the proposed Heritage Communities Local Area Plan***, which I believe presents a well-balanced approach to accommodating new homes and businesses in the area. While the creation of the plan is an important step; it is just the beginning of a long process to enhance the area's assets and services. I would like to ask for clarification in the plan on a few key issues regarding the implementation of the plan. For example:

1. Which ***City Service Lines*** (www.calgary.ca/service-lines/2023-2026-city-services.html) will be responsible for helping Councillors and citizens in realizing the over 60 service & public realm improvements listed on pages 101-104 of the plan?
2. Why does the plan not reference the Council-approved 2015 Macleod Trail Corridor Study, which proves a 5A network is possible while still maintaining 6 vehicle lanes? www.calgary.ca/planning/transportation/macleod-trail-corridor-study.html. While not ideal for commuter cyclists, (Haddon Rd / 5 St SW is great!) there is definitely opportunity for cycling to/from local destinations on Macleod Trail.
3. Where can citizens turn for assistance in developing plans for affordable housing on vacant city-owned lands and refreshing of underutilized parks and open spaces?

Staff from the City Planning & Policy Service line who led the creation of this plan will be needed elsewhere to complete the 39 remaining local area plans. Therefore, realizing public realm and service improvements requires assistance from other City Services lines. ***But how do citizens, Councillors and Service Line Owners know who from The City should be involved in various public realm improvements?***

Subsequent to adopting this plan, I would strongly encourage Council and Administration to embrace the model of ***Asset Based Community Development*** (www.nurturedevelopment.org/asset-based-community-development/) and allow regular community-led updates to sections 3 & 4 of new local area plans. Those two chapters describe the public realm and service improvements needed to support future growth. Citizens and councillors deserve an active voice in planning and realizing the services they want for the area.

Table 1, following this letter, provides an example of how to supplement pages 101-104 of the proposed plan by identifying relevant City Service Lines required to realize the over 60 citizen-generated public realm initiatives listed on pages 101-104. Knowing the relevant Service Line(s) instantly adds a link into the respective capital and operating budgets that could assist with realizing a desired improvement.

In conclusion, I strongly support the approval of the proposed Heritage Communities Local Area Plan. This plan aligns with the trend of having cities where all services are within a 15-minute reach and puts Calgary's Planning and Policy Service Line at the forefront of City Planning in North America.

Further, if Council would embrace the Asset-Based Community Planning Model and allow future community-led updates to Chapters 3 & 4 then I think it will help realize the public realm improvements that matter the most to the residents, businesses, and landowners in the Heritage Communities area.

Thank you for your consideration for integrating City Service Lines, and therefore City Budgeting, directly into new Local Area Plans.

Sincerely,

Jordan Furness, BBA, BURPI, RPP, MCIP

Table 1 - Integrating City Service Lines into the Heritage Communities Local Area Plan

Draft Heritage Communities Local Area Plan
Summary of Investment Opportunities
(Existing Info on Pages 101-104 Proposed Plan)

**City Service Lines Required to Support
Community or Councillor-Led Public Realm Improvements**
(Proposed Additional Info to support implementation)

Heritage Communities Supporting Growth Core Values	Investment Opportunities (What We Heard)	Location(s)
Improve Connectivity Between Communities	1 2 3 4 Improve the pedestrian experience along Community Corridors by widening sidewalks, providing street furniture and planting areas and improving accessibility	Multiple Locations: Elbow Drive SW, Bonaventure Drive SE, Fairmont Drive SE, Acadia Drive SE, 90 Avenue SE
	5 Improve the 5A network regional pathway along the south side of Heritage Drive S by widening the pathway, providing seating areas, removing barriers and enhancing the separation between the pathway and the road.	Heritage Drive S
	6 Integrate wayfinding signage at key locations along Macleod Trail S, Heritage Drive S, around Transit Station Areas and Community Corridors that could include information about destinations, distances and routes for each mode.	Varies
	7 Explore functional improvements and potential realignments to the 5A Network by making use of linear parks and laneways, engineered walkways and the setback area of the Freight Rail Corridor, especially along Sacramento Drive SW.	Southwood
	8 Improve the interface between the Haddon Road Depot/Heritage Station Garage and Haysboro community.	Haysboro
	9 Explore opportunities for publicly-accessible viewpoints and pathways along the Blackfoot Bluff between Heritage Drive S and Southland Drive S.	Acadia
	10 Identify, design and built new east-west cycling and pedestrian connections to allow for safe and direct travel to the Glenmore Reservoir and the Bow River regional pathway network.	Varies (Eagle Ridge, Kingsland, Haysboro, Acadia)
	11 Complete missing sidewalk links and explore sidewalk widening along key pedestrian corridors, especially along Elbow Drive SW, Bonaventure Drive SE, Fairview Drive SE, Acadia Drive SE, Haddon Road SW, Horton Road SW and Flint Road SE.	Varies
	12 Improve pedestrian crossings at major intersections, particularly at Macleod Trail S and Southland Drive S and Heritage Drive S and 14 Street SW.	Varies
	13 Explore opportunities to complete east-west pedestrian and cycling connections through improved laneways, engineered walkways, pedestrian bridge approaches/landings, on-street connections and off-street connections such as multiuse pathways between 14 street SW and Blackfoot Trail SE.	Varies

Draft Heritage Communities Local Area Plan
Summary of Investment Opportunities
(Existing Info on Pages 101-104 Proposed Plan)

**City Service Lines Required to Support
Community or Councillor-Led Public Realm Improvements**
(Proposed Additional Info to support implementation)

Heritage Communities Supporting Growth Core Values	Investment Opportunities (What We Heard)	Location(s)
	14 Enhance the public realm between LRT stations and major community destinations, especially around Heritage LRT Station, recreation facilities, Lord Beaverbrook High School and Acadia Athletic Park.	Varies
	15 Prioritize traffic calming around schools, recreation facilities, parks, community associations and along Community Corridors.	Varies
	16 Improve connectivity, protection, and legibility of those walking and wheeling at crossings of major roads like Southland Drive S. and Heritage Drive S.	Varies
	17 Consider on-street parking opportunities along Community Corridors near commercial developments, especially along Bonaventure Drive SE and Elbow Drive SW.	
Enhance the Macleod Trail S Urban Main Street Area	18 Undertake a streetscape master plan for key sections of Macleod Trail S to support a comfortable, accessible and safe public realm by including publicly accessible amenity spaces, wider sidewalks, new trees and seating areas.	Macleod Trail S
	19 Consider opportunities to convert curb lanes to on-street parking along Macleod Trail S to create a buffer between the public realm and the road as well as to support local businesses.	Varies (Macleod Trail S)
	20 Explore partnership opportunities between the City and private partners to realize temporary, flexible and seasonal use of vacant, publicly-owned sites.	Varies
	21 Integrate wayfinding at key intersections, especially near Major Activity Centres, Transit Station Areas and key destinations beyond the plan area.	Varies
	22 Improve connections from and across Macleod Trail S to adjacent communities by widening sidewalks, adding street trees and enhancing the separation between pedestrians and traffic.	Varies
	23 Integrate public art in public spaces or as part of private development.	Varies
Foster Vibrant	24 Incorporate improvements to the interface between residential areas and the Freight Rail Corridor and LRT right-of-way by including fencing, landscaping, and public art, especially in Kingsland Athletic Park, Haysboro linear park and Southwood linear park.	Varies
	25 Explore opportunities for redeveloping large surface parking areas including Park and Ride facilities and accommodating parking in above-grade parking structures or underground.	Varies
	26 Prioritize pedestrian infrastructure upgrades, including upgrades to the existing pedestrian bridges in and around Transit Station Areas to include weather protection element, improve safety and aesthetics, especially around Anderson LRT Station.	Anderson LRT Station
	27 Improve connectivity and pedestrian crossings between transit stations and key destinations in the community.	Varies

Thanks for the opportunity to express my concerns regarding densification in Chinook Park and Kelvin Grove.

Dear IPC and Council,

Re: Heritage LAP

The Chinook Park, Kelvin Grove, Eagle Ridge (CKE) Community Association commissioned a community wide professional survey to determine what residents felt about the proposed densification of our neighbourhoods. The survey received a statistically valid response rate and concluded that over 80% of responding residents wish to preserve the single-family character of the three neighbourhoods. I am among the 80%. The current draft of the LAP green lights the blanket densification of our three neighbourhoods. Despite repeated requests to revise the LAP to preserve our single-family character, the City Planners have refused. We ask that the Infrastructure and Planning Committee recommend to Council that the LAP be revised to preserve the single-family character of CKE.

The current draft is of enormous concern for me/us and many members in our community.

We purposefully moved away from a densified area in Calgary (3 times) as we wanted to be away from densified crime, densified parking, densified playground, noise, pollution from densified cars, away from so many people on crowded sidewalks. We needed to have a yard, with mature trees (at least one), a safe place for my children's friends to play in an actual yard, a place where we can walk down the sidewalk and have a chance meeting with a neighbor and talk without having to yell over the noise, a place where my children can feel safe just walking outside, riding their bike, and creating lasting positive memories. This builds a strong, resilient, community.

I understand there is a significant climate concern and my family is doing their part to help. But densification by removing nature, crowding people together, increasing noise, decreasing safety, are not in my view, a long-term viable option. This just creates more problems and doesn't address the climate issue. Densification increases heat, increases carbon, increases crime and increases health problems (various studies in Psychology, environmental design, anthropology and climate support this).

Regards,

Colin Sheppard

March 27th, 2023

Dear IPC and Council

Re: Heritage LAP

We are recent new owners of a property in Kelvin Grove and are in the process of building a new bungalow on a corner lot. We elected to purchase a property in Kelvin Grove due to its, central location, quiet neighbourhood and single family-character.

We are supporters of the Chinook Park, Kelvin Grove, Eagle Ridge (CKE) Community Association who commissioned a community wide professional survey to determine what residents felt about the proposed densification of our neighbourhoods. The survey received a statistically valid response rate and concluded that over 80% of responding residents wish to preserve the single-family character of the three neighbourhoods. We are among the 80%. The current draft of the LAP green lights the blanket densification of all three neighbourhoods. Despite repeated requests to revise the LAP to preserve our single-family character, the City Planners have refused. We ask that the Infrastructure and Planning Committee recommend to Council that the LAP be revised to preserve the single-family character of CKE.

The current draft of the LAP is of enormous concern for us and many other members in our community.

Regards,

Kevin and Cheryl Jabusch

Comments - please refrain from providing personal information in this field (maximum 2500 characters)

I have applied to speak live at the hearing and am also providing written comments.

I'm Hanita Simard, and I've lived on this planet for about 5 decades, and in Kelvin Grove, the K in CKE, for 2 of those decades.

I am in favour of the LAP for 4 reasons:

1. Increasing Population

When I was born, the world's population was 3.7 billion. Today it is 8 billion.

When CKE was built in the 1950s, the population of Calgary was about 160 000
Today Calgary's population is 1.3 million.

The earth hasn't gotten bigger.

The resources we need to sustain human life are seriously finite.

And weirdly, while the population almost everywhere else on the planet and this city has increased, the population in CKE has not. Average residents per house in Kelvin Grove, my community, has dropped from about 4 when the community was new, to about 2 now. And that is a trend that is expected to continue.

CKE needs to start being a community that is a vibrant and dynamic part of this planet, part of this city. We need to have more neighbors, more community members, more young people, more families, more seniors. We need a community that is more equitable and sustainable. We need to have a community where the schools and services around it are viable, not a community that is aging and in which the population is declining, as it currently is.

2. Climate Crisis

When I was born the ppm of CO2 in the Earth's atmosphere was 326.42. Today it is 416.43 ppm.

To put this into perspective, previous to the 1930s, and for over 800 000 years, the CO2 levels were never above 300 ppm.

To put this into perspective, the IPCC's final report came out on Monday March 20, 2023, and they said we have 7 years to take action, 7 years to decide if we want to ensure that life for humans on this planet is not miserable. The climate crisis is the biggest threat to human life, and so far no one has done enough to address it.

The LAP addresses some of that,

- by supporting more homes for more people closer to where people work.
- by ensuring resources are available and accessible in each community
- by increasing livability, walkability, and rideability throughout our communities, decreasing our reliance on individual vehicles (now we just need better and electric public transportation infrastructure!)

3. Schools in Aging Inner City Communities need a boost or they will be closed

In the 1970s, the schools in CKE were filled to the brim with students who lived in local communities and went to local schools. Today, the schools in our communities struggle to have enough students to pay for maintenance, and sometimes struggle to have enough students enrolled.

I chose to live in CKE for two main reasons. The first because it is on the No.3 bus line, and the second because of the schools. My kids walk to their local neighborhood public schools and it is just the best. However

- as the size of families have decreased and will continue to decrease,
- as the community ages, as property values increase,
- the difficulty for young families to afford homes in CKE,
- as people make choices to send their kids to other schools

we see the impact of this on our local public schools, which are struggling with declining student numbers. The LAP, by increasing housing and business options, making communities more livable, increases the viability of our local public schools, and not only ensures that kids have access to great public education, but that the heart of our community remains strong.

4. Housing Shortage and Affordability Crises

Like many big cities in Canada, we simply don't have enough housing options, especially in the middle range, and we don't have enough homes that people can afford, especially in the inner city. It just doesn't make sense to constantly push people out to the periphery of the city, expanding our city's sprawl, and all the negative stuff that comes with that, when we have the ability to make a real positive change in aging inner city communities. And specifically it doesn't make sense that while the city is absorbing new people and is relatively young, CKE isn't absorbing any new people and is getting older. The LAP revitalizes communities by providing more choice and flexibility for current and future property owners, by bringing more neighbors into communities, by creating more equitable and livable communities.

Conclusion

I want to live in a community that has more neighbors, that has more community.

I want to live in a community where residents who have lived here for decades can continue to live with neighbors and friends because there is suitable and affordable accommodation, and services and shops that are easily accessed.

I want to live in a community that is welcoming to new residents, and that sees new community members as vital to our community's health.

I want young adults to be able to make CKE their home because we have affordable housing for young people establishing their careers, and a vibrant community where they want to hang out in, and great public transportation so they can work and play throughout the city.

I want families to want to live in CKE and be able to do so because of

- the great public schools,
- excellent public transportation,
- access to public health services,
- a choice of housing that works for all life stages and different budgets,
- and businesses that thrive and are sustainable

because we have diverse, equitable, liveable, and healthy communities.

I want to live in a community that continues to grow, respond to and change with the needs of citizens, the community, the city, and the planet.

I want all of this in addition to what we already have, and the LAP helps to makes this possible.

Dear Infrastructure and Planning Committee and Council,

Re: Heritage LAP

I live in Chinook Park and I chose to live in this RC-1 neighbourhood because of the single family homes on larger lots, with mature trees and nearby schools. I paid a premium to live in this neighbourhood and would like to retain the single family character of the community.

I am not against densification, however, there are R-2 areas within the City that are already zoned for higher densification. It is in these areas, along with empty building downtown, that the City should focus their efforts.

The Chinook Park, Kelvin Grove, Eagle Ridge Community Association recently commissioned a community wide professional survey to determine what residents felt about the proposed densification of our neighbourhoods. The survey received a statistically valid response rate and concluded that over 80% of responding residents wish to preserve the single-family character of the three neighbourhoods. I am among the 80%. The current draft of the Heritage LAP green lights the blanket densification of our three neighbourhoods. Despite repeated requests to revise the Heritage LAP to preserve our single-family character, the City Planners have refused. We ask that the

Dear IPC and Council,

Re: Heritage LAP

The Chinook Park, Kelvin Grove, Eagle Ridge (CKE) Community Association commissioned a community wide professional survey to determine what residents felt about the proposed densification of our neighbourhoods. The survey received a statistically valid response rate and concluded that over 80% of responding residents wish to preserve the single-family character of the three neighbourhoods. I am among the 80%. The current draft of the LAP green lights the blanket densification of our three neighbourhoods. Despite repeated requests to revise the LAP to preserve our single-family character, the City Planners have refused. We ask that the Infrastructure and Planning Committee recommend to Council that the LAP be revised to preserve the single-family character of CKE.

The current draft is of enormous concern for me/us and many members in our community.

Regards,

Karen McNerney

Re: Heritage LAP
The Chinook Park, Kelvin Grove, Eagle Ridge (CKE) Community Association commissioned a community wide professional survey to determine what residents felt about the proposed densification of our neighbourhoods. The survey received a statistically valid response rate and concluded that over 80% of responding residents wish to preserve the single-family character of the three neighbourhoods. I am among the 80%. The current draft of the Heritage LAP green lights the blanket densification of our three neighbourhoods. Despite repeated requests to revise the LAP to preserve our single-family character, the City Planners have refused. We ask that the Infrastructure and Planning Committee recommend to Council that the LAP be revised to preserve the single-family character of CKE.
The current draft is of enormous concern for me/us and many members in our community.
Regards,
Frank and Sandy Cosman

Dear IPC and Council,

Re: Heritage LAP

The Chinook Park, Kelvin Grove, Eagle Ridge (CKE) Community Association commissioned a community wide professional survey to determine what residents felt about the proposed densification of our neighbourhoods. The survey received a statistically valid response rate and concluded that over 80% of responding residents wish to preserve the single-family character of the three neighbourhoods. I am among the 80%. The current draft of the LAP green lights the blanket densification of our three neighbourhoods. Despite repeated requests to revise the LAP to preserve our single-family character, the City Planners have refused. We ask that the Infrastructure and Planning Committee recommend to Council that the LAP be revised to preserve the single-family character of CKE.

The current draft is of enormous concern for me/us and many members in our community.

I am shocked how poorly the proposed LAP reflects the comments from the community. Despite documenting these comments in the various stages of the so called consultation - none of the concerns raised by the community have been addressed in the proposed LAP. This document should not be approved by the committee until it actually takes into consideration community input. Otherwise, the so called engagement process continues to be truly a sham as it was for the BRT project.

March 28, 2023

To: Troy Gonzalez
Sr. Planner, City of Calgary, Heritage Communities Local Area Plan

From: Planning Committee, Haysboro Community Association

RE: Heritage Communities Local Area Plan: Infrastructure & Planning Committee Meeting, Apr. 5.

Dear Mr. Gonzalez

The letter is written on behalf of the Haysboro Community Association to express support for the final draft of the Heritage Communities Local Area Plan that city administration will be presenting to the Infrastructure & Planning Committee on April 5, 2023.

We are pleased to see the establishment of a long-term plan for the evolution of Haysboro and surrounding communities. Our community is an older community, established in the late 1950s that has been home to multiple generations of families. Its appeal was, and is, wide-ranging. It offers a close-knit community with unparalleled access to places of employment including Calgary's Downtown Core; natural spaces such as those surrounding the Glenmore Reservoir; commercial services and recreational facilities along McLeod Trail; and health services through Rockyview General Hospital. It is a community that serves its population well and has great potential to continue to do so in the future.

We understand that Calgary's established neighbourhoods have experienced a decline in population over past decades and Haysboro is no exception. This unfortunate decline is best demonstrated by the utilization rates of the schools in the community. Some are now low enough that the threat of permanent closure looms. School closure is particularly distressing because their purpose is to usher in the new generation. Low utilization is an obvious sign that new families are needed in the community. New families are necessary for the longevity of the community.

The Heritage Communities Local Area Plan sets the foundation for growth by accommodating evolved living requirements for families. It anticipates emerging trends and provides opportunities such as multi-generational living arrangements, child-care centers, and senior living. At the same time, it protects the residential character of the community, by maintaining current building types and form through much of the community.

We'd like to draw attention to implementation options identified in Section 3.2 that have been developed by city administration based on feedback from the community. We support these projects and encourage council to prioritize these for future investment, recognizing a need for life-cycle improvements to existing infrastructure, that will improve mobility and connectivity, transit stations, and parks spaces. We believe these investments are necessary to attract new families and investment in the community.

The plan suggests development of Transit Station Area Public Space Plans that will consider improvements for the public realm and mobility connections to transit stations. We support this as it would work to address uncertainty surrounding the Heritage LRT station as well as the city-owned lot across Haddon Road that was the site of the former YMCA facility.

We support the inclusion of the 5 Street SW / Haddon Road SW / Sacramento Road SW Greenway, recognizing this route as an important north-south mobility connection linking Kingsland, Haysboro, and Southwood and believe this to be a viable candidate for investment. We, similarly, support inclusion of the 89 Avenue SW Greenway that could be formalized as an important east-west connection between Glenmore Landing and 14th Street SW and Haddon Road SW.

Finally, we support inclusion of the MacLeod Trail SE Urban Main Street Area and advocate for its funding and advancement within the Main Streets program.

Thank-you for the opportunity to contribute to the development of the plan.

Sincerely,

Andrew Forsyth, Talia Mimura, Arden Turnbull
Planning Committee, Haysboro Community Association

My family is a 24 year resident of Kelvin Grove. Our beautiful single-detached home neighborhood has flourished and continues to flourish since we moved here in 1999. My wife and I specifically chose to raise our children in Kelvin Grove because it IS a single-family home neighborhood- NO infills, NO semi-detached houses, NO row houses and NO townhouses. I attended the Heritage Communities Local Area Plan ("Plan") information session held on 6 February 2023 at the Acadia Recreational Complex. I spoke with the City's Planning Department representatives and provided my written comments opposing the Plan. It's my opinion that the Plan's effect will result in the densification of Kelvin Grove and the concomitant increases in population, number of motor vehicles, pollution and the amount of street parking. To illustrate my point I recommend that the Infrastructure and Planning Committee (IPC) and Councillor Penner tour Altadore. I am very disappointed, though not entirely surprised, to learn that notwithstanding the engagement of CKE residents at this and other information sessions, the City chooses to leave the Plan unamended. You may be unaware that many many CKE residents are opposed to the Plan as it pertains to our neighborhoods. I don't understand why the IPC can't accept the idea that the actual residents of the affected neighborhoods are opposed to densification. What is wrong with leaving Kelvin Grove as it is?
Respectfully submitted.

Dear IPC and Council,

Re: Heritage LAP

The Chinook Park, Kelvin Grove, Eagle Ridge (CKE) Community Association commissioned a community wide professional survey to determine what residents felt about the proposed densification of our neighbourhoods. The survey received a statistically valid response rate and concluded that over 80% of responding residents wish to preserve the single-family character of the three neighbourhoods. I am among the 80%. The current draft of the LAP green lights the blanket densification of our three neighbourhoods. Despite repeated requests to revise the LAP to preserve our single-family character, the City Planners have refused. We ask that the Infrastructure and Planning Committee recommend to Council that the LAP be revised to preserve the single-family character of CKE.

The current draft is of enormous concern for me/us and many members in our community.

Regards,

Ziad

Dear IPC and Council,
Re: Heritage LAP

I continue to be frustrated by the Heritage LAP engagement process. Our community association completed a survey about proposed densification of our neighbourhood and the survey indicated the majority support the preservation of the single-family character of the three neighbourhoods. Despite this clear position from homeowners and residents, our concerns continue to be brushed aside or rationalized away, and in particular, by our ward councilor who has repeatedly expressed her strong bias in support of densification.

The current draft of the LAP would expedite densification of our three neighbourhoods, drastically changing our community. Despite repeated requests to revise the LAP to preserve the character of our community, the City Planners have refused.

We ask that the Infrastructure and Planning Committee recommend to Council that the LAP be revised to preserve the character of CKE.

The current draft is of enormous concern for me/us and many members in our community.

Regards,
Ian Mandry

Dear Infrastructure and Planning Committee and Council,

Re: Heritage LAP

I grew up in Chinook Park and moved back to the neighbourhood in 2015 to enjoy a single-family home on a larger lot, with mature trees in a RC-1 district.

The Chinook Park, Kelvin Grove, Eagle Ridge Community Association recently commissioned a community wide professional survey to determine what residents felt about the proposed densification of our neighbourhoods. The survey received a statistically valid response rate and concluded that over 80% of responding residents wish to preserve the single-family character of the three neighbourhoods. I am among the 80%.

The current draft of the Heritage LAP (LAP) green lights the blanket densification of our three neighbourhoods. Despite repeated requests to revise the LAP to preserve our single-family character, the City Planners have refused. We ask that the Infrastructure and Planning Committee recommend to Council that the LAP be revised to preserve the single-family character of Chinook Park, Kelvin Grove and Eagle Ridge Areas.

In Chinook Park, there are already eight condo buildings along Elbow Drive between 75th Avenue and 82nd Avenue, which house ~200 people. Furthermore, there are empty office buildings downtown plus R-2 areas that are better suited for further

densification.

The current LAP draft is of enormous concern for me and many members in our community.

March 28, 2023

Re: Heritage LAP

Upon review of the Heritage LAP coming to committee April 5th, 2023; the Acadia Community Association would like to bring forward some concerns.

The first concern is with the general wording within the LAP.

Most of the language within is very non-committal - such as the use of words like 'should', 'might', and 'if'. Considering the amount of work that has gone into the plan, the use of non-committal language in the LAP could easily be interpreted to align with just about any application regardless of if it aligns with the spirit of the LAP. It is suggested the MDP would trump any firmer wording the LAP might have, it is therefore the position of the Acadia Community Association that the Heritage LAP needs to have wording to support a succinct interpretation of the MDP that will give the plan the tooth the communities involved need.

Secondly, the protection of green spaces.

In the community of Acadia the majority of green space is school board 'asset'. Acadia has less than the norm of Municipal Reserve.

We continually struggle when we hear that school boards are permitted to sell off public asset to their benefit. As this seems to be a trend, it is not difficult to think that Acadia could embrace an appropriate densification plan only to have the attractiveness of great local green space be taken away.

As this particular interaction is likely not exactly within the scope of the LAP, we hope some conversation is occurring to retain green space as density increases.

On a positive note.

When this LAP began, it was confirmed that the plan would not purposefully be including the applicable mobility-related City documentation.

It is difficult (if not impossible) to create a fulsome plan for livable spaces if how we get around is not included.

We are very pleased to hear the city is embracing a multidisciplinary approach to our spaces (especially to spaces that have a considerable people element), to ensure mobility options will be available and inclusive, and that livability isn't being diminished due to poor (notably road) design choices.

Truly,

Keith Simmons
Vice-President
Acadia Community Association

Our community is within the proposed Heritage Local Area plan, specifically, the CKE neighbourhood of Kelvin Grove. The plan will allow for a level of densification which is not in keeping with our neighbourhood by design or infrastructure. The desired densification targets within our area have already been achieved, most notably by the the Mayfair towers and other multi residential properties and retail along Elbow Drive. There are other areas with an obvious NEED for densification and an overall area improvement - like along McLeod trail. The area is under utilized and lacks any sort of functionality or appeal. City focus should be put in these areas of need first. There is also the proposed "midtown station" development at Glenmore and McLeod Trail, which will provide densification of a SIGNIFICANT nature. The project and its size is something unique to our neighbourhood and I do not believe exist anywhere else within the City. The project may change, but the potential for future densification is there and will happen to some degree. These are only a few ways our community either HAVE, NEED or COULD receive the densification detailed in the plan, without going into the existing residential areas in the community. Most residents have purchased their homes with the desire to live in a single family community, not next to multi residential/retail developments and be impacted by the changes that come with them (parking, traffic, overcrowding of schools, lack of proper maintenance, but more so the lost appeal of the original design to the community). Failure to recognize these as genuine and real concerns is simply irresponsible. We hope the City will do the right thing by focusing on where the true needs of the community are. Listen to the overwhelming response of the residents in our communities who know them best, and strongly oppose the plan extending into their neighbour-

hood(s). Thank you.
