

PLATFORM calgary

Driving faster connections between
talent, capital & ideas in Canada's
fastest growing tech city.

Calgary's Home for Innovators opened on June 6, 2022.

2022 Event Bookings and Revenue

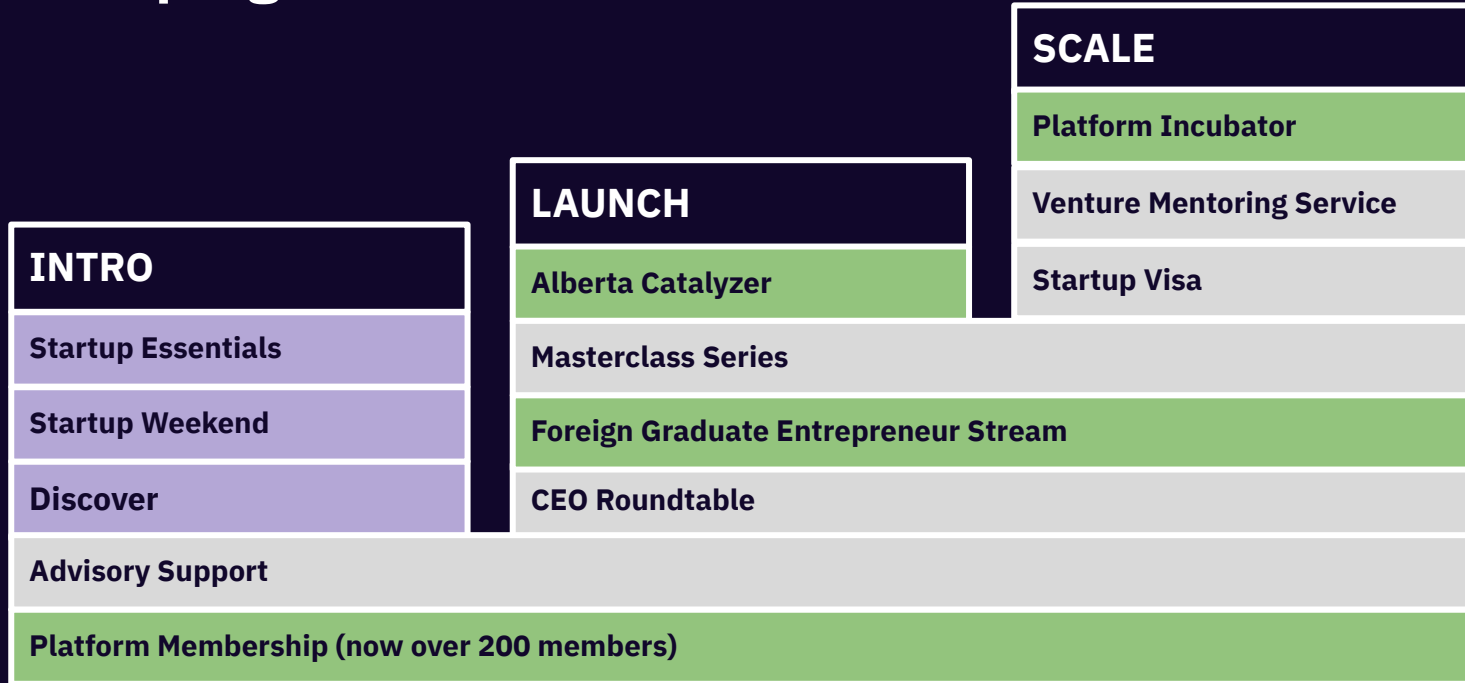

2022 Highlights

What do innovators need to start and scale?

In 2022, more than 1600 people were served through an integrated suite of new, revamped & existing programs.

We tracked the performance of 82 pre-commercial startups that were in our programs from 2018-2020.

By 2022, they had created 178 net new jobs, adding over \$10M in new annual payroll to the Calgary economy.

This cohort is still growing.

Our program capacity has more than tripled since 2020.

It works.
Calgary founders are attracting investment and creating jobs.

PLATFORM
calgary

2022 was a year of building.

Opening and learning to operate a hub for tech, innovation and entrepreneurship.

Engaging and connecting a 'support system' of over 110 partners for founders, investors, job seekers and industry.

Rolling out and/or hosting new programs that fill critical gaps and leverage public investment.

Creating community where everyone is welcome, connected and supported.

A comprehensive ecosystem of support with over 110 partners
