## Community Outreach for Planning & Development Applicant-led Outreach Summary

### What did you hear?

Provide a summary of main issues and ideas that were raised by participants in your outreach.

Of the people that reached out with concerns, the main points raised were:

- Traffic, parking
- Shadows, height of building, privacy
- Density
- Waste management
- Setbacks and loss of green space

### How did stakeholder input influence decisions?

Provide a summary of how the issues and ideas summarized above influenced project decisions. If they did not, provide a response for why.

Most of these concerns can and will be addressed in the design stage, where design will ensure comfort, style, and privacy for not only the end-user, but the the community at large. Furthermore, R-CG bylaw addresses many of these concerns and prevents them from becoming problematic in the first place.

### How did you close the loop with stakeholders?

Provide a summary of how you shared outreach outcomes and final project decisions with the stakeholders that participated in your outreach. (Please include any reports or supplementary materials as attachments)

Each person who reached out received a tailored and transparent response. There are still ongoing conversations that will not be finalized on our end until the stakeholder is confident they feel fully informed.

This section will be further updated prior to council.
