

# Applicant Submission

Company Name (if applicable):

Horizon Land Surveys

LOC Number (office use only):

Applicant's Name:

Lei Wang

Date:

April 2nd, 2023

On behalf of the landowner, please accept this application to redesignate a +/-0.084 hectare site from R-C2 to R-CG to allow for:

- rowhouses in addition to the uses already allowed (e.g. single-detached, semi-detached, and duplex homes and suites)
- a maximum building height of 11 metres (an increase from the current maximum of 10 metres)
- the uses listed in the proposed R-CG designation.

The subject site, 640 52 Ave SW, is a corner lot located in the community of Windsor Park along 6 Street and 52 Ave SW. The lot is currently developed with a single detached dwelling built in 1952. Community Centre is immediately to the south of the site. Another R-CG application is immediately to the north of the side. The rest are single detached dwellings.

The site is approximately 0.084 hectares in size. A rear lane exists to the north of the site. Vehicle access to the parcel is available and will be via the rear lane. The site is about 170 meters from Elbow Dr. which is part of city's primary transit network.

The subject parcel is located within the established area of the Municipal Development Plan. The applicable policies encourage redevelopment of inner-city communities that is similar in scale and built form to existing development, including a mix of housing such as townhouses and row housing. The Municipal Development Plan also calls for a modest intensification of the inner city, an area serviced by existing infrastructure, public amenities and transit. The proposal is in keeping with the relevant policies of the MDP as the rules of the R-CG provide for development forms that may be sensitive to existing residential development in terms of height, built form and density.

It will be used to provide operating programs, account services and to process payments received for said services. It may also be used to conduct ongoing evaluations of services received from Planning & Development. Please send inquiries by mail to the FOIP Program Administrator, Planning & Development, PO Box 2100, Station M, Calgary, AB T2P 2M5 or contact us by phone at 311.

The proposed R-CG is a Low Density Residential District. With the lot being a corner lot, the impacts of higher density use on neighbouring lower density properties can be reduced. Housing that faces both streets adds to the residential appearance of the side streets and tends to slow traffic and enhance pedestrian safety and experience on adjacent sidewalks.

Housing diversity and choice policies encourage the provision of a wide range of housing types, tenures and densities that may meet affordability, accessibility, life cycle and lifestyle needs of different groups; an adaptation of the City's existing housing stock to enable changing households to remain in the same neighbourhood for longer time periods through allowing accessory suites in low density areas. So we sincerely hope city can support our application.
