I am writing in regard to the proposed land use change and development (LOC2023-0081).

While I understand that a degree of restructuring is necessary for the growing population in Calgary, I am not in favour of the proposal in the Westgate communities and specifically the Glendale neighborhood. Glendale is an established area with close proximity to retail amenities. To approve the redesignation application of a six storey building that exceeds high density is not consistent with the current character of one residence per lot, most of which are bungalows. Row housing or two storey structures, combined with retail space would however be acceptable.

Comments: please refrain from providing personal information in this field (maximum 2500 characters)

My concerns regarding the proposed rezoning are the height applied for and the degree of intensification in the neighborhood and the impact this development will have. Such as: decreased privacy, decreased street parking, increased traffic and noise, increased lot coverage, increased waste storage and the environment. There is a development project that has already been approved and is currently happening near the Shaganappi Golf Course. As well, there is vacant land near the Westgate LRT Station to be considered for development. Both of which will significantly increase the density in the community, affecting surrounding neighborhoods.

After many conversations with residents in the area, they concur with these concerns and would like to protect the Glendale/Glendale Meadows neighborhood. WE, the residents, ask that city council deny the application for a land use change to R-CG and consider an application for R-C2 and that respect be given to the residents of this area
