Community Outreach for Planning & Development Applicant-led Outreach Summary

What did you hear?

Provide a summary of main issues and ideas that were raised by participants in your outreach.

Generally, local residents were seeking clarity on the timing of the green line station and overarching redevelopment timelines. This included cautious optimism on the future redevelopment of Eau Claire Market. There were concerns regarding the change of land uses but an understanding that the confirmation of the station location since the last approval changes the development context of the site.

How did stakeholder input influence decisions?

Provide a summary of how the issues and ideas summarized above influenced project decisions. If they did not, provide a response for why.

The concerns are well-understood from the previous application and considered as part of this application.

How did you close the loop with stakeholders?

Provide a summary of how you shared outreach outcomes and final project decisions with the stakeholders that participated in your outreach. (Please include any reports or supplementary materials as attachments)

Ongoing and we will work with the community groups throughout the process.
