<b>Commissioner Tiedemann</b>	<p>Reasons for Approval</p> <ul style="list-style-type: none"><li>• Very basic application to allow for child care in an existing home with plenty of parking and directly across the street from a green space. It is unfortunate that applications as simple as this require a land use change to a <u>direct control</u> as there is no other viable option available. The new land use bylaw being worked on by the planning department needs to include a stock residential district that allows for child care as a use so that direct control districts are not required.</li></ul>
<b>Commissioner Hawryluk</b>	<p>Reasons for Approval</p> <ul style="list-style-type: none"><li>• This is application would allow the expansion of an existing Child Care Service. It meets the points of the Child Care Service Policy and Development Guidelines (Attachment 1, page 5). I hope these applications become simpler and faster in the future.</li></ul>
