

Land Use Amendment in Renfrew (Ward 9) at 944 Renfrew Drive NE, LOC2022-0223

RECOMMENDATION:

That Calgary Planning Commission recommend that Council:

Give three readings to the proposed bylaw for the redesignation of 0.07 hectares \pm (0.17 acres \pm) at 944 Renfrew Drive NE (Plan 1838GT, Block 3, Lot 11) from Residential – Contextual One / Two Dwelling (R-C2) District to Residential – Grade-Oriented Infill (R-CG) District.

RECOMMENDATION OF THE CALGARY PLANNING COMMISSION 2023 MAY 4:

That Council give three readings to **Proposed Bylaw 84D2023** for the redesignation of 0.07 hectares \pm (0.17 acres \pm) at 944 Renfrew Drive NE (Plan 1838GT, Block 3, Lot 11) from Residential – Contextual One / Two Dwelling (R-C2) District to Residential – Grade-Oriented Infill (R-CG) District.

HIGHLIGHTS

- This land use amendment application seeks to redesignate the subject site to allow for rowhouses and townhouses in addition to the building types listed in the existing district (e.g. single detached, semi-detached, duplex dwellings and secondary suites).
- The proposal represents an appropriate density increase of the site, allows for development that is compatible with the character of the existing neighbourhood and is in keeping with the provisions of the *Municipal Development Plan (MDP)* and the *North Hill Communities Local Area Plan (LAP)*.
- What does this mean to Calgarians? The proposed Residential – Grade-Oriented Infill (R-CG) District would allow for increased housing options within the community and more efficient use of existing infrastructure and nearby amenities.
- Why does this matter? The proposed redesignation would allow for greater housing choice to accommodate the evolving needs of different age groups, lifestyles and demographics.
- No development permit has been submitted at this time.
- There is no previous Council direction regarding this proposal.

DISCUSSION

This application, located in the northeast community of Renfrew, was submitted by SK2 Design Build on behalf of the landowners, Robin Happy and Kailash Happy, on 2022 December 14. No development permit has been submitted at this time; however, as referenced in the Applicant Submission (Attachment 2), the proposal is to obtain land use amendment approval to accommodate a townhouse development with up to five units.

The approximately 0.07 hectare parcel is located on the southeast corner of the intersection of Renfrew Drive NE and Robert Road NE. The parcel currently contains a single detached dwelling and detached garage.

A detailed planning evaluation of the application, including location maps and site context, is provided in the Background and Planning Evaluation (Attachment 1).

ENGAGEMENT AND COMMUNICATION

- Outreach was undertaken by the Applicant
- Public/interested parties were informed by Administration

Applicant-Led Outreach

As part of the review of the proposed land use amendment application, the applicant was encouraged to use the [Applicant Outreach Toolkit](#) to assess which level of outreach with relevant public groups and the respective community association was appropriate. In response, the applicant met with the Renfrew Community Association and with the neighbour to the south. The Applicant Outreach Summary can be found in Attachment 3.

City-Led Outreach

In keeping with Administration's practices, this application was circulated to relevant public groups, notice posted on site and published [online](#). Notification letters were also sent to adjacent landowners. Administration received 5 responses in opposition from the public noting the following areas of concern:

- potential building height and shadow impacts;
- increased density; and
- traffic increase and parking shortage.

The Renfrew Community Association (CA) initially provided a letter in opposition on 2023 January 16. The applicant reviewed the concerns and met with the CA on 2023 April 21 to discuss the application and mitigations. On 2023 April 25, the CA sent an email withdrawing their objections (Attachment 4).

Administration considered the relevant planning issues specific to the application and has determined the proposal to be appropriate. The R-CG District is intended to be located adjacent to other low-density districts and accommodates a variety of low-density housing forms. It provides a modest density increase within a neighbourhood while being sensitive to adjacent development. The building and site design and on-site parking will be further reviewed as part of a future development permit stage.

Following Calgary Planning Commission, notifications for a Public Hearing of Council for the land use amendment will be posted on site and mailed out to adjacent landowners. In addition, Commission's recommendation and the date of the Public Hearing will be advertised.

IMPLICATIONS

Social

The proposed land use district will allow for a wider range of housing types than the existing land use district and may better accommodate the housing needs of different age groups, lifestyles and demographics.

Environmental

This application does not include any actions that specifically address the objectives of the *Calgary Climate Strategy – Pathways to 2050*. Further opportunities to align future development

Land Use Amendment in Renfrew (Ward 9) at 944 Renfrew Drive NE, LOC2022-0223

on this site with applicable climate strategies would be explored and implemented at future development approval stages.

Economic

The ability to develop up to five rowhouse units with the possibility of secondary suites would allow for more efficient use of existing infrastructure and services.

Service and Financial Implications

No anticipated financial impact.

RISK

There are no known risks associated with this proposal.
