

# Applicant Submission

2023 July 5

Company Name (if applicable):

Horizon Land Surveys

Applicant's Name:

Lei Wang

Date:

March 19th, 2023

LOC Number (office use only):

On behalf of the landowner, please accept this application to redesignate a +/-0.060 hectare site from R-C2 to R-CG to allow for:

- rowhouses in addition to the uses already allowed (e.g. single-detached, semi-detached, and duplex homes and suites)
- a maximum building height of 11 metres (an increase from the current maximum of 10 metres)
- a maximum of 4 dwelling units (an increase from the current maximum of 2 dwelling units)
- the uses listed in the proposed R-CG designation.

The subject site, 2502 16A Street SE, is a corner lot located in the community of Inglewood along 24 Ave SE and 16A Street SE. The lot is currently developed with a single detached dwelling built in 1913. Inglewood Community Association exists to the north of the site. The lot is surrounded mostly by single detached dwellings.

The site is approximately 0.060 hectares in size. A rear lane exists to the east of the site. Vehicle access to the parcel is available and will be via the rear lane. The site is about 120 meters from bus station along 17 Street.

Inglewood Area Redevelopment Plan encourage the construction of more housing to increase the population. With the existing house built in 1913 and deteriorating conditions, the proposed row house developments will accommodate more families into the community, promote stability within the community, improve existing residential areas by renovation and rehabilitation where feasible, and encourage home ownership.

Please send inquiries by mail to the FOIP Program Administrator, Planning & Development, PO Box 2100, Station M, Calgary, AB T2P 2M5 or contact us by phone at 311.

The subject parcel is located within the Residential-Developed-Inner City area of the Municipal Development Plan. The applicable policies encourage redevelopment of inner-city communities that is similar in scale and built form to existing development, including a mix of housing such as townhouses and row housing. The Municipal Development Plan also calls for a modest intensification of the inner city, an area serviced by existing infrastructure, public amenities and transit. The proposal is in keeping with the relevant policies of the MDP as the rules of the R-CG provide for development forms that may be sensitive to existing residential development in terms of height, built form and density.

The proposed R-CG is a Low Density Residential District. With the lot being a corner lot, the impacts of higher density use on neighbouring lower density properties can be reduced. Housing that faces both streets adds to the residential appearance of the side streets and tends to slow traffic and enhance pedestrian safety and experience on adjacent sidewalks.

Housing diversity and choice policies encourage the provision of a wide range of housing types, tenures and densities that may meet affordability, accessibility, life cycle and lifestyle needs of different groups; an adaptation of the City's existing housing stock to enable changing households to remain in the same neighbourhood for longer time periods through allowing accessory suites in low density areas. So we sincerely hope city can support our application.
