**Re: AGA Properties**  
**Proposed Land Use Reclassification Application**  
**1107 – 33<sup>rd</sup> Street NE**  
**Consultant Application Submission Letter**  
**Our File #221574 – 1.2C**

Lisette,

Please find enclosed our amended land use application for our land use redesignation for the above noted property for your review and circulation.

Wm. R. (Bill) KIMLIN,  
ARCHITECT  
AAA, AIBC, SAA, MAA,  
MRAIC, PRINCIPAL

Our client, AGA Properties currently owns both 1107 and 1111 – 33<sup>rd</sup> Street NE which also includes for two different land use zones. The zoning at 1111 33<sup>rd</sup> Street NE is currently shown as C-COR3f1.0h12 and contains a single storey building.

Barry D. SULLIVAN  
ARCHITECT  
AAA, AIBC, SAA, MAA,  
MRAIC, PRINCIPAL

Our focused property is 1107 – 33<sup>rd</sup> Street NE and contains a one and two storey building that has a range of uses from bingo facility, Legion establishment, and former Army & Navy retail development. This property is currently zoned as C-R1f0.5 which is appropriate for the given uses for the existing buildings.

Our client is wanting to redevelop the existing building on this site as part of a master-planned development for her series of companies. The primary focus of the first phase of the redevelopment would include redeveloping the Army & Navy building into a cultural retail and conference centre.

SUITE 310,  
5819 - 2ND STREET SW  
CALGARY, ALBERTA  
T2H 0H3

As our client's organizations work with many cultures throughout Calgary and surrounding area, her envisionment of the Army and Navy Building would be that of a culturally focused retail market style development along the main floor and the conversion of the second floor into that of a conference and events facility. We believe that this type of facility with the combined uses would be a first for Calgary and would be a significant cultural hub for many ethnic groups located in Calgary's northeast communities.

PH: (403) 283-8361  
FAX: (403) 252-7877

We believe that this land use reclassification will allow us to redevelop what is now an outdated, purpose-built retail facility into that of a facility showcase of cultural gatherings and market activities.

SUITE 690  
1199 WEST PENDER STREET  
VANCOUVER, BRITISH COLUMBIA  
V6E 2R1

To garner the proposed range of uses desired by the Owner while still permitting the existing tenants to operate, our proposed reclassification of the parcel would be to change it from C-R1 to that of Industrial Business (I-B). This parcel change would maintain the regional land uses of Industrial General while maintaining the commercial focused uses required for the site

VANCOUVER:

FORT ST. JOHN:  
(250) 785-4658

redevelopment. Based on the site location and envisioned redevelopment potential for the site, we are looking at a floor area ratio of 1.0 and a height limitation of 20.0m. Our proposed zoning would be I-Bf1.0h20.

Regional Review

The proposed site is located in close proximity to 36<sup>th</sup> Street NE and the Calgary LRT system in a predominantly commercial / industrial zone west of 36<sup>th</sup> Street NE. The location of the site and the proposed uses within the redevelopment will activate this area of the community beyond what is now a typically 8am to 5 pm workday environment.

With the exception of the adjacent hotel to the northeast, the area is dominated by retail along 36<sup>th</sup> Street NE and industrial uses around this site. Our proposed uses will enliven the 33<sup>rd</sup> Street frontage with a range of activities that will stretch outside of the typical workday and provide additional excitement to the retail activities of the Pacific Place Mall directly to the east.

We also recognize that with the shift from a commercial zone currently to that of Industrial Business (I-B), we also align with the Industrial zoning in the region to the west and south of the site. We also believe that this proposed zoning also would be in alignment with the Industrial Strategies group within the City of Calgary.

Community Outreach

We have completed our community outreach back on April 26, 2023. Our report is enclosed as part of our submission documentation.

Active Transportation Report

Please find enclosed as part of our submission our completed Active Transportation Report containing the required report content as requested by the City of Calgary's Mobility Engineering Department.

We believe that our envisioned redevelopment of the existing retail building can be a true catalyst for the Owner's many organizations as well as becoming a cultural hub that can bring forth and showcase the cultural diversity of Calgary for everyone to experience and appreciate.

Should anyone have any questions regarding our proposed land use reclassification submission, please do not hesitate to contact our office to discuss. We look forward to working with the Subdivision Applications Group and Planning and Development on our exciting land use redevelopment.

Sincerely,
