

Applicant Submission

We are applying to redesignate the properties at 3418 and 3422 Richmond Road S.W. from DC 28Z91 to RC-2. The purpose of this redesignation is to legalize the basement secondary suites which have been in these properties since before they were purchased. The current owners have upgraded the suites to meet all Safety Codes requirements and the suites have been inspected.

We are contacting the affected neighbours and tenants, the Killarney-Glengarry Community Association, and Councillor Walcott, and will report on our engagement at the Public Hearing.

Thank You
