Hello Lisette,
Thank you for reaching out.
There were no concerns from the planning committee with this application/resignation.
In fact we were quite impressed with the package as submitted by the developer including conceptual drawings of the potential development.
Our main concern is that the proposed development requires the removal of several mature trees. While these are not city trees, any consideration to preserving them, or replacing with similar and/or appropriate trees would be major priority for the Planning Committee.
Thank you
