## Community Outreach for Planning & Development Applicant-led Outreach Summary

### What did you hear?

Provide a summary of main issues and ideas that were raised by participants in your outreach.

Following the notice posting (large format) and since we didn't hear anything we just took it that it didn't seem to be any serious interest (at least no objections) so we let the matter rest.

### How did stakeholder input influence decisions?

Provide a summary of how the issues and ideas summarized above influenced project decisions. If they did not, provide a response for why.

No issues were brought to our attention and as such we followed the land use bylaw (M-1d120)

### How did you close the loop with stakeholders?

Provide a summary of how you shared outreach outcomes and final project decisions with the stakeholders that participated in your outreach. (Please include any reports or supplementary materials as attachments)

With no negative comments from any stakeholders (including the planning department) we just let the matter rest.  
Please be advised that the development to the north expressed to my client that they didn't have any objections to our land use amendment.  
The development to the West (under construction) and future development to the South is also under some arrangement with the owners of the subject application.
