Re: 17th Avenue Pocket Park

To whom it may concern

Cliff Bungalow-Mission Community Association (CBMCA) fully supports the actions of community volunteers in their work to establish the 17th Avenue SW pocket park, and the CBMCA application for the Council Innovation fund .

We are very proud of the dedication and perseverance these community members have shown in trying to improve this small corner of our community and in doing so, make our neighbourhood a better place.

In a community underserved in parks space these community led initiatives go a long way towards making our neighbourhood a more welcoming place, especially at a pedestrian entranceway like 5a street. It benefits not just our community but the school, and the cultural streetscape that is 17 avenue . It is a small park perhaps, but hopefully one that creates a sense of place and a welcoming aspect to the tree-lined heritage streetscape along 5A .

We are proud to foster an attitude of community led initiative towards making our neighbourhood and the surrounding area a more attractive and vibrant urban space in the pedestrian realm.

Thank you for your consideration in this matter

Rick Williams, Secretary
Cliff Bungalow-Mission community Association
