Community Outreach for Planning & Development Applicant-led Outreach Summary

What did you hear?

Provide a summary of main issues and ideas that were raised by participants in your outreach.

No direct feedback received from Neighbors or CA till date. However, we received from information City that there are few oppositions to the Rezoning of this lot.

How did stakeholder input influence decisions?

Provide a summary of how the issues and ideas summarized above influenced project decisions. If they did not, provide a response for why.

We do respect the feedback of the neighbors in opposition. We do believe the proposed R-CG only represents a small increase of density and a better use of the current land. All raised concerns mentioned by CA can be addressed as part of the DP application when submitted.

How did you close the loop with stakeholders?

Provide a summary of how you shared outreach outcomes and final project decisions with the stakeholders that participated in your outreach. (Please include any reports or supplementary materials as attachments)

Our common practice is to keep the loop open through the DP process.
