To whom it may concern,

The intent of this land use application is to increase the maximum allowable occupancy of our childcare facility from the current 25 children.

Our hope is to get an increase of up to 50 children so we can better serve the surrounding area. Our current building is being under utilized at the current allowable capacity.

We feel direct control with an increase to the max capacity would be the appropriate land use designation as we do not want to make any other alteration to what can be done with the property.

The increase we are asking for would allow us to accommodate the maximum allowable capacity to be in line with current childcare standards and building capacity requirements. It would also allow for growth in the future if required.

Thank you,
