I wish to strongly object to the creation of the backyard suites proposed in this application. There will be a increase in the number of vehicles and in the number of garbage containers all utilizing the 'dead-end' back lane. This would create a dangerous situation in the event of an emergency. I would also suggest that backyard suites ARE NOT compatible with the character of the neighbourhood as Inglewood presents a 'front-street' appeal. I also object to the height proposal; maintain the 10 meter maximum. Thank you.

My name is Jack Herron and I live at 1424-15 st se in Calgary. There's a development proposal for the property next door to me at 1420-15 st se.

The proposal is for a duplex and a 4 car garage with two suites above it. My first concern is an 85-90 year old Manitoba maple tree that is a feature of my yard. The roots extend onto the development property and the new plans don't show the tree there. What and how can I get compensated for losing this magnificent tree? Is the developer allowed to take it down or kill it by chopping the root system and I have no say?

As to the development: the alley behind our homes has only one access to it. It's not a paved alley. If all units are occupied there could be eight cars involved as most modern families are two car households. That means more street parking which takes spaces away from people with no garages that live on this street.

Also the height is a metre higher than the tallest building on our street. City council seems to rubber stamp these projects instead of following the rules made in the past. Why are the developers allowed to change these restrictions? Or to create two tiny suites over a garage when the norm is one suite on other garage developments?

These new structures will house up to ten people or more if the duplex owners have families and the suites have couples. That's a lot of people on one property.

I and my family are ok with the duplexes but want the garage limited to one suite. Hopefully, common sense will prevail and council will stand up for the neighborhood rather than developers who sell and are off trying to change other neighborhoods.
