Child Care Service Policy and Development Guidelines 7

Site Selection Criteria	
Child care services should be located in relationship to activity focus areas such as schools, community centres, recreation facilities, parks and local commercial areas.	✓ ✓
Child care services should be located on a site that can provide sufficient staff parking and pick-up and drop-off parking. The site should not front a bus zone.	X ✓
Child care services must be located on sites large enough to accommodate outdoor play areas for the type of child care being proposed.	? ✓
Child care services should be located on collector streets, which already carry higher levels of traffic than local streets. Locations near collector and major streets may also be considered provided access to the facility does not draw traffic through the community.	X ✓
Child care services should be located on corner parcels to minimize impact on adjoining residential uses.	X ✓
Concentration of child care services in an area should be avoided.	✓ ✓
