

# Applicant Outreach Summary

2023 November 6

## Community Outreach on Planning & Development Applicant-led Outreach Summary

**Please complete this form and include with your application submission.**

**Project name:** 5604 20 Street SW

Did you conduct community outreach on your application?  YES or  NO

If no, please provide your rationale for why you did not conduct outreach.

### Outreach Strategy

Provide an overview of your outreach strategy, summary of tactics and techniques you undertook (Include dates, locations, # of participants and any other relevant details)

Before undertaking the project, our office completed the "Community Outreach Assessment". The project's impact score is "1B". So we are implementing a direct approach to reach to community association, local residents within a 90 meters radius and also Ward Councilor Office.

On June 15th, 2023, our staff did post card deliver to residents within a 90 meters radius. During the process, our staff did door knocking and spoke with residents at home. The main concerns our office got are with regards to increased traffic, increased density, height, shadow effects, and safety. We believe those can be properly dealt with at the development permit stage.

Meet Councillor Penner and her team online on Oct. 18th, 2023. Councillor Penner asked us to continue engage with community association.

Make the proposal to community association to only rezone the corner lot to R-CG and leave the second lot as the current zoning.

### Stakeholders

Who did you connect with in your outreach program? List all stakeholder groups you connected with. (Please do not include individual names)

Immediate neighbour, local residents, community association and ward councillor office

## Community Outreach for Planning & Development Applicant-led Outreach Summary

### What did you hear?

Provide a summary of main issues and ideas that were raised by participants in your outreach.

The main concerns we heard from local residents are: increased traffic, parking issues, increased density, height, shadow effects, privacy and safety.

Some people also express concerns over property value and crime.

### How did stakeholder input influence decisions?

Provide a summary of how the issues and ideas summarized above influenced project decisions. If they did not, provide a response for why.

Initially we are applying for two lots rezoning to R-CG including the corner lot 5604 20 Street SW and the second lot 2039 55 Ave SW. After discussion with Councillor Penner and hearing concerns from local residents and community association, we are making the change to only rezone the corner lot to R-CG and leave the second lot as current R-C2 lot. This will significantly decrease the number of units we can build on site and restrict the row house only to corner lot.

### How did you close the loop with stakeholders?

Provide a summary of how you shared outreach outcomes and final project decisions with the stakeholders that participated in your outreach. (Please include any reports or supplementary materials as attachments)

Continue engage with Councillor office and community association. And better explain to local residents about proposed developments and restrictions under R-CG.
