

# Applicant Outreach Summary

## Community Outreach on Planning & Development Applicant-led Outreach Summary

Please complete this form and include with your application submission.

**Project name:** 3019 27 Street SW

Did you conduct community outreach on your application? ☒ YES or ☐ NO

If no, please provide your rationale for why you did not conduct outreach.

### Outreach Strategy

Provide an overview of your outreach strategy, summary of tactics and techniques you undertook (Include dates, locations, # of participants and any other relevant details)

On December 16, 2023 we went to the neighbors in the area surrounding our project. The location being 27 Street SW, Calgary. This outreach included going door to door to contact 10 of the neighbours.

### Affected Parties

Who did you connect with in your outreach program? List all groups you connected with. (Please do not include individual names)

In this outreach program our primary focus was on the neighbors closest to our project. We aimed to communicate to those who would be most greatly affected by our addition and this includes directly next door neighbours as well as the neighbours across the street.

## Community Outreach for Planning & Development Applicant-led Outreach Summary

### What did you hear?

Provide a summary of main issues and ideas that were raised by participants in your outreach.

Although we had little feedback from those we managed to get in contact with, most of the neighbours were understanding of the addition and were in support of it as it meant that the home would be valued higher. There were little comments as most participants in the outreach had no opinion to give.

### How did input influence decisions?

Provide a summary of how the issues and ideas summarized above influenced project decisions. If they did not, provide a response for why.

These comments have little effect on how we plan to move forward with this project as there was very little to take into account.

### How did you close the loop ?

Provide a summary of how you shared outreach outcomes and final project decisions with those who participated in your outreach. (Please include any reports or supplementary materials as attachments)

We went door to door to contact those who would be affected by the project, however, as a team it would seem redundant to tell the neighbours that the addition was approved. Most of the neighbours were happy to participate and had little feedback to give as it was so we found it unnecessary to go back and notify them of the decision.
