

# Applicant Outreach Summary

2024 March 28

## Community Outreach on Planning & Development Applicant-led Outreach Summary

**Please complete this form and include with your application submission.**

**Project name:** 2002 Broadview Road NW

Did you conduct community outreach on your application?  YES or  NO

If no, please provide your rationale for why you did not conduct outreach.

### Outreach Strategy

Provide an overview of your outreach strategy, summary of tactics and techniques you undertook (Include dates, locations, # of participants and any other relevant details)

Before undertaking the project, our office completed the "Community Outreach Assessment". The project's impact score is "1A". So we are implementing a direct approach to reach to community association, local residents within a 100 meters radius and also Ward Councilor Office.

On Oct. 20th, 2023, our staff did post card deliver to residents within a 100 meters radius. During the process, our staff did door knocking and spoke with residents at home. The main concerns our office got are with regards to increased traffic, increased density, height, shadow effects, and safety. We believe those can be properly dealt with at the development permit stage.

On Mar. 18th, 2024, an online meeting with planning committee of West Hillhurst Community association was organized.

### Stakeholders

Who did you connect with in your outreach program? List all stakeholder groups you connected with. (Please do not include individual names)

Immediate neighbour, local residents, community association and ward councillor office

## Community Outreach for Planning & Development Applicant-led Outreach Summary

### What did you hear?

Provide a summary of main issues and ideas that were raised by participants in your outreach.

The main concerns we heard from local residents are: increased traffic, parking issues, increased density, height, shadow effects, privacy and safety.

Some people also express concerns over property value and crime.

Community association also brought up concerns with regards to lack of public transit in the area, increased traffic flow to the community due to the development, parking issues, utility services including sanitary and storm and tree protection.

### How did stakeholder input influence decisions?

Provide a summary of how the issues and ideas summarized above influenced project decisions. If they did not, provide a response for why.

We believe those concerns can be properly dealt with at the development permit stage.

According to R-CG bylaw, the side setback is increased to 3 meters on the side neighbouring another residential dwelling. Also even though, the maximum height is 1 meter higher, R-CG bylaw require lower height at perimeter.

Traffic, parking, deep services and tree protection are all part of the bylaw requirement we have to follow strictly.

### How did you close the loop with stakeholders?

Provide a summary of how you shared outreach outcomes and final project decisions with the stakeholders that participated in your outreach. (Please include any reports or supplementary materials as attachments)

Continue engage with local residents, Councillor office and community association. And better explain to local residents about proposed developments and restrictions under R-CG.
