

## **2015 GROUP TWO LOCAL IMPROVEMENT PROJECTS**

---

### **EXECUTIVE SUMMARY**

The purpose of Bylaw 3R2015 is to carry out owner-initiated local improvement projects in 2015. These projects include laneway paving in residential areas and residential driveway crossings. Adoption of this bylaw is required to facilitate completion of these projects.

All of the projects included in this bylaw were initiated or requested by adjacent property owners. This update only affects Ward 7, 8, 9, 11, 12 and 14.

### **ADMINISTRATION RECOMMENDATIONS**

That Council:

1. Increase budget and appropriation to Roads Capital Program 147-148 by \$1,432,888 in 2015; and
2. Give three readings to Bylaw 3R2015.

### **PREVIOUS COUNCIL DIRECTION / POLICY**

On 2015 March 10 Council approved Local Improvement Bylaws 1R2015 and 2R2015 for 2015 Group One Local Improvement Projects.

### **BACKGROUND**

Local Improvements (LI's) are construction projects on City property that Council considers to be a greater benefit to a particular area of the municipality than to the whole municipality. Examples include street or lane paving and driveway crossings.

Municipalities have a long history of using LI's to help cover the cost of infrastructure. LI charges are assessed to adjacent benefiting properties and then added to property taxes until the costs are repaid. The Municipal Government Act (MGA) provides provincial statutory guidelines for LI administration.

There is no cost sharing between The City and property owners with respect to laneway paving, roadway paving, and driveway crossings. Actual costs for these improvements are charged to the property owners.

### **INVESTIGATION: ALTERNATIVES AND ANALYSIS**

Local Improvement Bylaws are processed according to the MGA (section 396) and various policies and guidelines, as follows:

- A petition package to initiate the local improvement is obtained by calling The City of Calgary Operations Centre at 3-1-1.
- To be valid, a petition must be signed by at least two-thirds (2/3) of the affected property owners representing at least half (1/2) the assessed value of land.
- The completed petition form is returned to The City for validation.
- When a valid petition is received, the proposed project is included in the next available group of local improvements.

## **2015 GROUP TWO LOCAL IMPROVEMENT PROJECTS**

---

- A Notice of Intention is mailed to each affected property owner outlining the type of proposed construction, the estimated cost and the property owner's estimated share of the cost.
- Property owners have the right to submit petitions to The City against the proposed local improvements. To be valid, a "petition against" must be signed by at least two-thirds (2/3) of the affected property owners representing at least half (1/2) the assessed value of land.
- A "petition against" must be received within the 30 days of the mailing date of the Notice of Intention.
- If a valid petition against a project is received, The City is prohibited from proceeding with the work (MGA 396 (3)). In this case, The City deletes the local improvement from the LI bylaw.
- In all cases, The City advises affected property owners in writing whether or not the petition is valid.

Bylaw 3R2015 is required for lane paving in residential areas with standard widths and for new residential driveway crossings (Attachment 1).

The scope of improvements, program costs and specific tax rates used for the Group Two LI's are set forth in the Bylaw. A general listing of tax rates used by The City is included with this report (Attachment 2).

### **Stakeholder Engagement, Research and Communication**

Notices of The City's intention to undertake 15 LI projects were sent to affected property owners on 2015 April 27. The deadline for receiving petitions against these projects was 2015 May 26 at 4:30 p.m.

"Petitions Against" were requested and sent out for two projects. Zero petitions against were returned for validation. Council will be informed by Administration at the 2015 July 27 meeting of any additional petitions received subsequent to preparation of this report.

If a valid petition is received prior to the Council meeting, it will be recommended that Council identify and approve the withdrawal of any project prior to second reading of the bylaws, direct Administration to recalculate dollar values and amend the bylaw content accordingly. Second and third readings may be given to the bylaws, as amended, with Council's understanding that all changes will be made by Administration and delivered to the City Clerk's office to serve as the legal corporate record.

Affected property owners will be notified in writing of Council's decision.

### **Strategic Alignment**

Through the owner-initiated LI process, The City and property owners facilitate and support efforts to improve neighbourhood assets. LI projects improve accessibility, and enhance

---

appearance without burdening all taxpayers with the full financial responsibility of improving these public spaces.

### **Social, Environmental, Economic (External)**

Owner-initiated LI projects can improve a specific area's liveability. They can contribute to increased attractiveness and accessibility. The LI process provides a mechanism for adjacent residents to improve public infrastructure such as paving a lane, while sharing the cost over numerous properties.

Lane paving is an effective means of dust reduction, offers better drainage, and prevents erosion of the lane surface. Proper driveway crossings often replace ramps or built-up material in the gutter, resulting in improved drainage.

Low effective interest rates, as set by the Alberta Capital Finance Authority, and a 15 year amortization help lower annual costs for affected property owners.

### **Financial Capacity**

#### **Current and Future Operating Budget:**

n/a

#### **Current and Future Capital Budget:**

The full costs for first time paving of lanes, roads and construction of new sidewalks and driveway crossings are borne by the property owners. The current budget includes funds borrowed by The City to contract work outlined in the Bylaws. The borrowed funds are ultimately repaid by the property owners and are not mill rate supported.

Total budget is \$5,288,079 and has been fully allocated. An increase in appropriation of \$1,432,888 is required for the Roads Capital Program 147-148, resulting in a total 2015 budget of \$6,720,967.

### **Risk Assessment**

The City's ability to complete needed LI projects and service customers (property owners) in a timely manner could be negatively impacted if the LI bylaws are not approved.

### **REASON FOR RECOMMENDATIONS:**

Through the LI process, property owners have the opportunity to upgrade infrastructure to improve quality of life in their community.
