

Its not a homestead anymore

Low density where a farm used to be

Cheaper means disposable,
not sustainable

Hemp fiber wall, stayed for 4 hours under heat of 360° and barely burned. Hemp walls are soundproof and act as an insulating layer.

Creating new ways to build while making best use of existing stock

Hemp fiber wall, stayed for 4 hours under heat of 360° and barely burned. Hemp walls are soundproof and act as an insulating layer.
