

Rezoning for Housing

Calgary needs more homes. Citywide rezoning will help increase supply.

“We need to put keys in doors and people in homes through a mathematical formula that gives more money to municipalities that are building and meeting targets and takes money away from cities and gatekeepers that aren’t.”

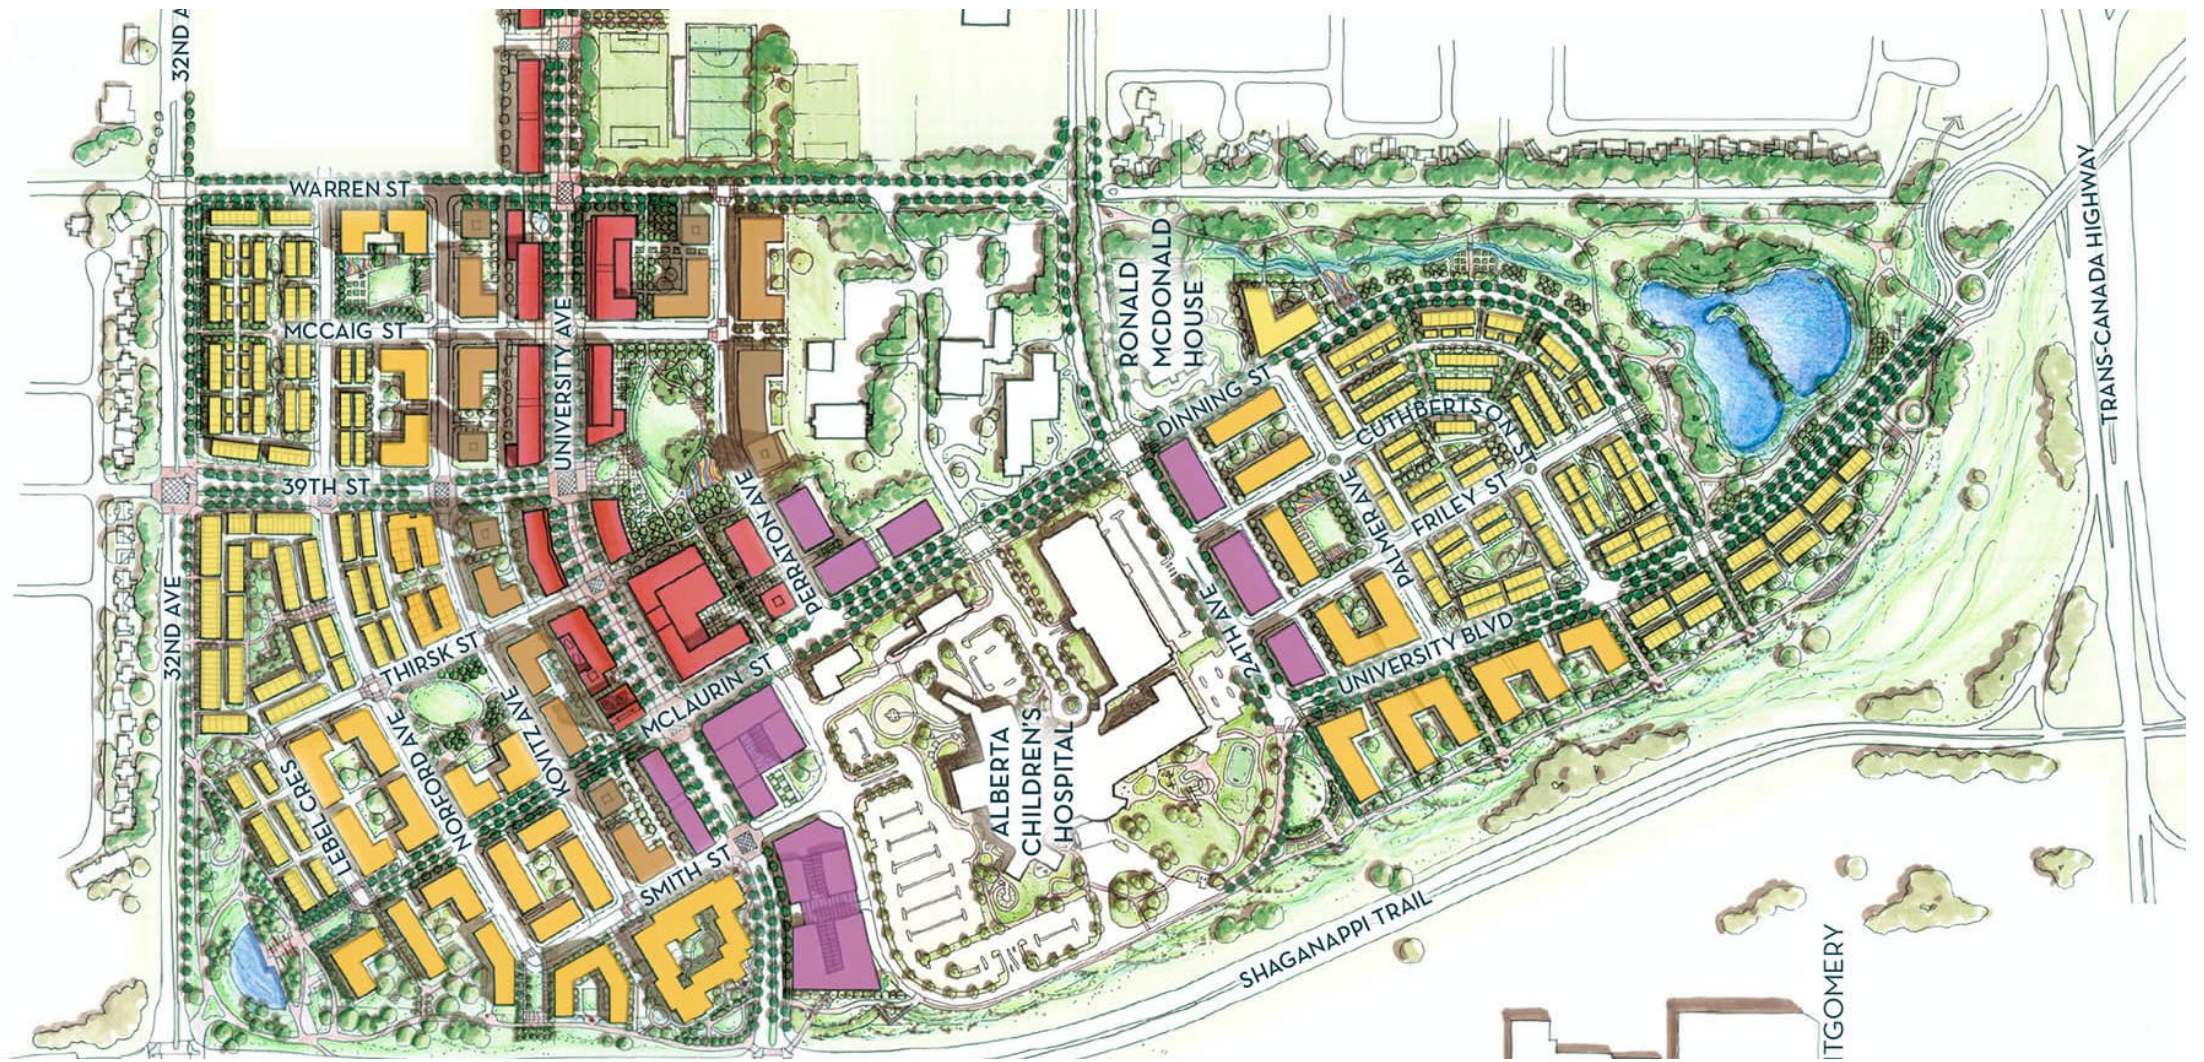

- Mr. Pierre Pollievre

“Impose a NIMBY penalty on big city gatekeepers for egregious cases of NIMBYism. We will empower Canadians to file complaints about NIMBYism with the federal infrastructure department...we will withhold infrastructure and transit dollars until cities allow homes to be built.”

- Building Homes Not Bureaucracy Act
