

# Applicant Submission

2023 September 18

For your consideration,

The proposed land use redesignation and future redevelopment at:

1804 51 Street NW, Calgary, AB.

This property is located in the community of Montgomery, north-west of the intersection of 17<sup>th</sup> Avenue and 51<sup>st</sup> Street, next door to the Calgary Community Church. It is within two blocks of the Bow River, Shouldice Park and Bowness Road. Along Bowness Road you will find a Safeway, various shops and bus routes that provide frequent service to the downtown core.

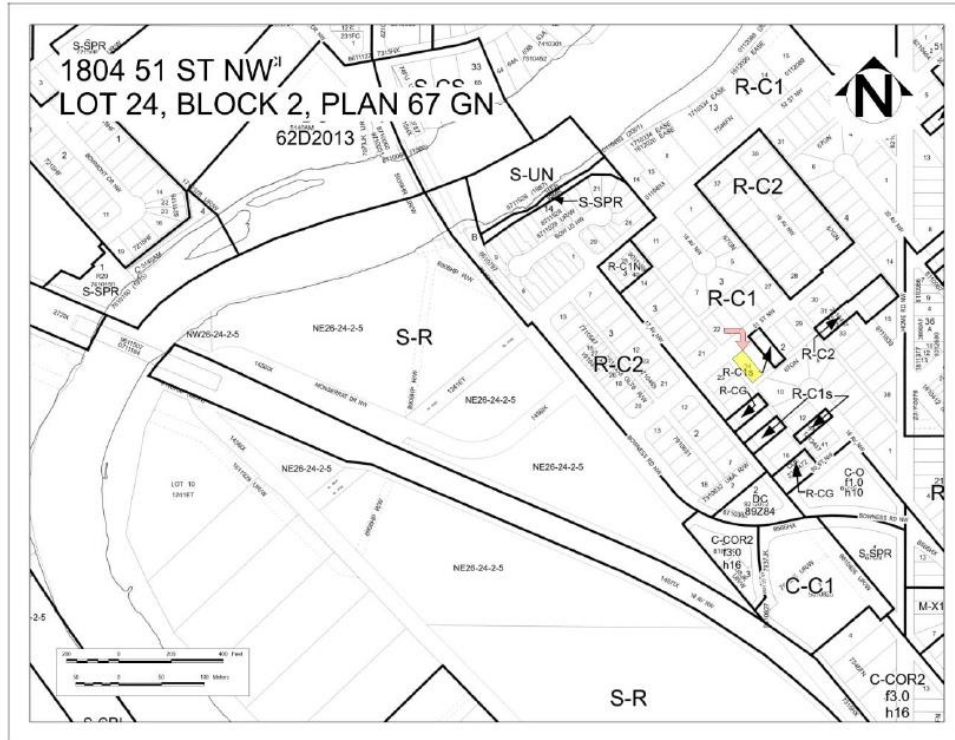

Currently, this 51 ft. wide by 120 ft. deep lot has a single detached bungalow and a detached garage that were built in 1953, and a land use designation of R-C1 (Residential - Contextual One Dwelling). R-C1 is a designation that is primarily used for single detached homes.

Our goal is to revitalize this property through redevelopment and modest intensification of the land use to the designation of R-CG (Residential - Grade-Oriented Infill). The R-CG land use is supported in this neighbourhood as seen present along the 17<sup>th</sup> Avenue block that is adjacent to this site.

The future development permit will propose a two-storey, semi-detached dwelling with two units, each having a living space of 2,038 sq. ft. above grade and 917 sq. ft. in the basement. Each unit will feature 3+2 spacious bedrooms, 2.5+1 bathrooms and 1+1 living rooms, along with 2 vehicle parking stalls in a detached garage. The modern exterior will have a red brick veneer contrasted against an off-white stucco finish, accented with black metal overhangs and trim.

We believe that with an abundance of nearby amenities and its close proximity to public transportation, this site is ideal for a higher residential density. A Semi-Detached dwelling within an R-CG land use is the perfect way to encourage growth in the Montgomery community through redevelopment that is similar in scale and build form. It also puts it in alignment with the City of Calgary's Municipal Development Plan (MDP) by providing a broader range of housing choices for the evolving demographic needs of the community.
