

Applicant Outreach Summary

2023 October 5

Community Outreach on Planning & Development Applicant-led Outreach Summary

Please complete this form and include with your application submission.

Project name: Change Of Zoning

Did you conduct community outreach on your application? YES or NO

If no, please provide your rationale for why you did not conduct outreach.

Outreach Strategy

Provide an overview of your outreach strategy, summary of tactics and techniques you undertook (Include dates, locations, # of participants and any other relevant details)

I diligently started working on Southview Rezoning activities, planning, gathering data, meeting various stakeholders couple of years ago. Great news is all the stakeholders were supportive of the plan and in fact excited to know of new proposed developments in a very old established neighborhood but "stagnant" for a very long time.

Over a period of time I met with various stakeholders, including local MLA, community association, neighbourhood residents, community church, Schools just to mention a few. This gave me the opportunity not just to meet wonderful people, but share what the proposed plans are, gain their support and keep them informed.

Stakeholders

Who did you connect with in your outreach program? List all stakeholder groups you connected with. (Please do not include individual names)

Southview Community Association
Great Neighbourhood
Southview Real Estate
Calgary South East Provincial Electoral Office
Southview Let's Build Together-UofC

Community Outreach for Planning & Development Applicant-led Outreach Summary

What did you hear?

Provide a summary of main issues and ideas that were raised by participants in your outreach.

Key summary for Southview - "More higher density, newer developments, residential housing in Southview is long required to attract new migrants to Calgary, and eventually slowly erase negative stigma attached to the nice community of Southview.

How did stakeholder input influence decisions?

Provide a summary of how the issues and ideas summarized above influenced project decisions. If they did not, provide a response for why.

Presently, large single residential dwellings on large size lot parcels does not meet the needs to most people who are hungry for affordable housing. Thus rezoning with the opportunity to build two or more houses will certainly not only meet the needs of present affordable housing but also enhance City revenue coffers, and reduce economic costs in the neighbourhood today.

How did you close the loop with stakeholders?

Provide a summary of how you shared outreach outcomes and final project decisions with the stakeholders that participated in your outreach. (Please include any reports or supplementary materials as attachments)
